# These Are Days to Benefit Yourself in Finding Good Merchandise

#### Every Spigot Upon the Water Pipes That Connect

with the city's water reservoirs opens up immediately a full supply whenever turned on in house, store, mill and workshop.

This Store is a Reservoir, and a big one, too, of almost everything wanted in a house, big or little, a hotel, an office, school, workshop or mill, and is accessible from every part

One need only to get into an automobile and pick out what is wanted and take it away with him.

Or one, or a thousand, can call on the phones for anything that's wanted, from a wedding ring to a baby's pair of socks; from a fishing boat to a silken gown; from a wardrobe to a bathrobe; from a flower vase to an American flag of any size, and the call will be filled.

You open the Store spigots and see how quickly this big Reservoir will supply your wants.

## More About the Beauty of Young

### Women's New Fall Suits

Not only are they suits to be worn during the Fall, however, but they are silk lined and then interlined for greater warmth during the really cold

This year we have been more particular than ever before about the all-wool fabrics they are made of-they are the best to be had and the tailoring is beautiful. The new fashions, in fact, call for the finest skill in tailoring, for there is much stitching, arrow point embroidery to finish the seams, double pockets and oddly shaped panniers to the coat that are really disguised pockets.

The suits without fur start at \$40 for a very pretty wool silver cloth and they go up to \$63.50. including sturdy mixtures and tweeds, fine velours, silvertones, burella cloths, cheviots and tricotines.

#### In the Still Finer Fur-Trimmed Suits

there are plain silvertone and checked velours, broadcloth and velvets with collars and often cuffs of nutria, Hudson seal (dyed muskrat), Australian opossum and squirrel. These, too, are all silk lined and interlined. They are in the newest and most fashionable colors and mostly exclusive models. \$70 to

Sizes 14 to 20 years.

(Second Floor, Chestnut)

#### Women's Velour Coats Prices \$50 to \$85

Four styles are in the Coat Store at these prices-and practically every style may be had in black, navy, green and paprika.

One of the best styles is that with a belted back, big collar and tucks so tiny they look like cording. Another good one has very straight lines-the back relieved by a tucked panel, and most of the fullness at the sides. The first is \$65 and the second \$57.50; while two fur-trimmed styles are \$50 and \$85.

#### Scarcely Anything Wears Better Than an All-Wool Tweed Suit

Some very new arrivals are of particularly good quality for hard, everyday wear, and they are extremely pretty in their soft, new tones of brown, green, blue and gray mixtures. A few have an indistinct

They would make very smart tailored street suits (tweed being most fashionable this year for this purpose), sports suits, coats for every kind of weather, or separate skirts for sports wear or to wear under coats.

All are 54 inches wide and priced at \$4 and \$5 a yard. (First Floor, Chestnut)

#### Letitia Corsets

Some women declare that they are the most comfortable corsets made, because they have the trick of yielding with every movement-a trick due to their exceedingly clever designing. And this is as true of the heavily boned Letitias as of the lightest of all the forty models.

Among the latest to come we mention a riding corset of broche, price \$9; and a slip-on or negligee corset with almost no bones at all, price \$9; and a tricot with elastic top and long skirt

Incidentally-among the forty models will be found low, medium and high busts. Prices are \$5 to \$11. (Third Floor, Chestnut)

#### Opportunities Will Glow in the Lamp Sale

for just four more days, so take advantage of them while you may. There is an attractive choice of lamps, including floor and table lamps, also decorated boudoir lamps, silk lamp shades in beautiful assortment and mahogany candlesticks, all at one-third to one-half less than regular prices.

It offers every advantage that a quilt stock can possess-stand-

We make all the down-filled quilts we sell and many of our

#### Ready With Full Stocks and Fine of Boys' Fall Suits

If you have a boy anywhere from 8 to 18 years old to clothe, it will do you good to see the crystal show cases in the Boys' Clothing Store, or rather the suits inside them. Varieties are now full and they

certainly span the whole range of excellence and attractiveness in boys' clothing. In design and style, the boys

suits this season follow the models for young men to a certain degree. Of course, they are all in the belted Norfolk style, but many are on the conforming or semi-fitting order with waist seams, other novel and attractive

features being inverted pleats and vertical pockets. Of course, there are plenty of patch-pocket suits and the regular full-pleated coats so noticeably absent during the war are back again.

All colors are here-grays and

greenish mixtures, browns, blue, unfinished worsteds and cheviots and blue serges. In sizes for boys of 8 to 18

years, \$15 to \$38.
