is startling, but true, that for a cedure period within the next three months Philadelphia will be a city without a salaried government.

It might be more proper to say that its officials and employes generally will be serving without pay. That is, unmeantime be perfected.

It is a curious fact that came to light a talk I had today with Joseph P. In a talk I had today with Joseph P. Gaffory, chairman of Councils' finance committee. To relieve suspense I may say that the period referred to is just four days. The condition is best described by Mr.

Gaffoey :

"There is a curious complication confronting us in this overturning of our present system of city government which do not think has been considered by my one. It occurred to me in connection with my duties as chairman of the committee.

Our present municipal government ceases operation on December 31. The respondence of the members. new order of things does not go into ffect until the first Monday in January. There is an interim therefore of four days in which the city is operating without steering gear, as one might may. Three days in which there is no wision for the payment of salaries or the general conduct of affairs.

To Provide for Bridging Gap

"Of course, business will go on as usual and there will be no actual susension of municipal functions. Just system will not require as much space same there must be some provision own do it.

No matter who may win or lose in the official vote count, or at the November election, a revolution in Phila. tured. delphia's government is due to begin ou the first Monday in January next.

Plans, rather indefinite to be sure. are already mapped out that will have to do with the workings of the new no provision for any such expense. I do not think that members of Council, Council of twenty-one and the various changes that will occur with the as-salary of \$5000, will care to maintain changes that will occur with the as-sumption of its duties. "I regret the going out of Mr. Jenks and Mr. Edmunds, who resigned from the Board of Education this week."

The only piano that brings no regrets

To know that neither the buyer nor his friends can ever discover a flaw in his musical taste, or a fault in his business sagacity, greatly enlarges the satisfaction of Steinway purchase.
