

# HALL TO SUCCEED SEGER IN COUNCIL

Lifelong Friend of Dead Political Leader Will Be Named for Position

## HIS OWN VOTE TO DECIDE

Charles B. Hall, chief clerk of Select Council, today announced his candidacy to succeed his late chief and lifelong friend, Charles Seger, as Republican candidate for the new Council from the Second Senatorial district.

Mr. Hall's announcement confirms what was generally accepted rumor. The vacancy created by Mr. Seger's death will be filled by the city commission from the seven wards in that district. Counting his own vote, Mr. Hall can be sure of a majority made up of William McCooch, of the Thirtieth ward; Harry Ransley, of the Second ward; and Senator Salus, of the Fourth ward. These three are Vore wards and Hall's Seventh Ward constitutes the balance of power.

The wards controlled by the Penrose forces are: Third, Harry J. Trainer, Fifth, James A. Carey, Eighth, E. A. Frelin.

As Carey and Trainer are not recognized by the city commission, the chairman of the ward committees from the Third and Fifth wards will not sit in the nominating convention.

Seger and Hall generally were aligned with the Penrose wing of the Republican organization. In 1917 they supported the Vore ticket against the Town Meeting party, and in the last primary they turned their ward in for Judge Patterson and the Organization ticket.

## PASTOR DEPLORES STYLES

Women's "X-Ray" Garments Termed Degrading—Fears for Young Men

Styles in feminine attire in Collingswood were deplored today by the Rev. Dr. Andrew Carlin, pastor of the West Collingswood Methodist Episcopal Church.

Doctor Carlin declared that the "X-ray" garments worn by some women are as degrading as the moving pictures that are often exhibited in Collingswood. The clergyman first expressed his views on the subject Sunday night, when he attacked the feminine mores and the movies at the same time. The charges has not appeared to cause any changes in styles since then, it appears.

"Unless churches take some definite action very soon to uphold decency and morals," Doctor Carlin said, "we may as well shut up the church and quit the church business. Why so many women insist on dressing as they do, exposing so much of their person, is something that I cannot fathom, and how young men are supposed to keep these indecent spectacles from their view when they are directed before their eyes all the time is a problem unsolved."

## TAPS FOR "WEARY WILLIE"

Hand-in-Hand With "John Barleycorn," He Departs for Other Climes

Weary Willie has departed, hand-in-hand with John Barleycorn.

His companion, Dusty Ike and the rest, have also gone the same way, and now there are few left to beat carpets, do little chores around the house and eat the cold biscuits left from breakfast.

John R. McIntyre, superintendent of the Whosever Gospel Mission, believes that prohibition is eliminating the tramp, the bum and the hobo.

At the mission there are only seven men of the chores-doing class. Formerly the mission had thirty or more every day.

## COAL CONFERENCE IN CITY

Sessions to Be Resumed Thursday to Act on Wages

The adjourned session of the conference of coal operators and miners, begun at Buffalo, N. Y., will convene in this city next Thursday, objection having been raised by the miners to meeting at Washington.

The recess was taken upon recommendation of the subscale committee, appointed at the instance of John L. Lewis, acting president of the miners. Pending the resumption of the conference both sides will gather information and members of the subscale committee will hold frequent meetings with those whom they represent.

## THRIFT DAY FOR SCHOOLS

October 24 Time for Teachers to Explain Country's Need in Peacetime

School children of Philadelphia will observe Friday, October 24, as Thrift Registration Day and Superintendent John P. Garber is urging principals and teachers to emphasize the necessity of thrift during assembly hours and at the regular lessons.

"The schools rendered loyal service along these lines during the war," said Doctor Garber, "but we must not forget that our government is now facing even greater issues and that a financial interest in the welfare of our country will prove a great stabilizing power during this crisis of unrest."

Carver Glass, secretary of the treasury, has sent a message which will be read in every school on that day. There will be a registration of pupils who signify their intention of saving money each week and will begin depositing their money to be invested in thrift and savings stamps.

On Sunday, October 26, the war savings department of the government, with the co-operation of churches, will present the thrift subject to those attending services that day.

## CITY DEMANDS WILL EXCEED \$2,000,000

Finance Committee to Face Heavy Requests From Various Department Heads

Members of Council's finance committee when they meet next week will face demands far in excess of any that can be covered by a \$2,000,000 temporary loan.

There is hardly a department of the city government that has not asked for sums ranging in the hundreds of thousands of dollars for bills to be met before the close of the year. The largest of the estimates for the remaining three months of the year are those submitted by Directors Wilson and MacLaughlin, of the Departments of Public Safety and Supplies. Wilson needs \$922,000 and MacLaughlin estimates his needs at \$711,000.

Salary demands to become operative at once also form a formidable total. In addition to these, the city owes the government and the United States shipping board between \$200,000 and \$300,000 for money expended in building up the lower section of the city. Another expense that must be met are bills aggregating \$125,000 for emergency repairs to sewers broken by summer storms.

The salary increases, it is understood, will be cared for by the increase of the tax rate. By the same method money will be raised to repay the temporary loan which will be made up within the next few weeks. This loan becomes a lien on 1920 revenue and must be provided for by additional revenue from taxation.

## Temple Medical School Open

Dr. Eugene T. Anis, professor of pathology and bacteriology in the school of medicine, Temple University, made the introductory address last night to the students of the department of medicine, dentistry and pharmacy of the institution in the college building, Eighth and Buttonwood streets. Professor Anis just has returned from overseas service. He was professor of pathology and bacteriology in Baume, the American university for the expeditionary forces.

## RED CROSS CAMPAIGN OPENED HERE TODAY

300 Members Make Preparations for Rollcall Gathering

More than 300 members today attended the opening session of an all-day conference being held by the American Red Cross at the Ritz-Carlton Hotel in

preparation for the rollcall campaign, November 2-11.

In outlining the peace program of the Red Cross today, Charles Scott, Jr., divisional manager, pointed out the necessity of expanding the work. "Hundreds of thousands of people," he said, "are dying in this country every year from preventable diseases. Forty-five thousand persons died in Pennsylvania last year from influenza. I am sure that the women of the United States, who made every sacrifice for the boys during the war, will be willing to aid in the fight to save babies suffering from preventable diseases."

Other speakers at the morning session, included Miss Susan C. Francis, director of nursing of the division; Major M. J. Shields, field agent of first aid, national headquarters; J. W. Faust, assistant manager of the division; Louis Kosbaum and Garrett P. Wyckoff.

The principal speakers at the afternoon meeting will be Countess Laura de Godzawa Turezynowicz, who is minister of public charities in the new Lithuanian nation's cabinet, and James H. Perkins, commissioner to France in charge of Red Cross relief work.
