

REDS' ARCH BOMBER ESCAPES U. S. NET

Military Agents Transfer Search from Ivanoff From Gary to Chicago

TWENTY CAPTURED IN RAID

Gary, Ind., Oct. 15.—Military authorities and federal agents declared today that Alexander Ivanoff, radical leader and chemist, formerly employed in the local steel mills and alleged maker of the May Day and Chicago postoffice bombs, is not under arrest. He is being sought as the result of information said to have been given the federal authorities by Anton Gostal, who is under arrest.

Convinced that Ivanoff has fled from Gary, the federal authorities have transferred their search for the radical leader to Chicago, where dozens of Department of Justice investigators are reported to be following clues.

Federal agents backed by troops early today made four more raids on homes of radical leaders here, in which about twenty persons were taken in custody. Six are being held. It is said that further evidence was obtained in these raids of the alleged plot for an uprising of radicals in Gary, although Colonel W. S. Mapes and other officials declined to discuss the details of the information obtained.

Fewer Troops in Gary

The forces of United States troops on duty here has been cut in half since yesterday noon by the transfer of about 7000 men to Camp Grant, Ill. The authorities evidently believe that the situation is now so well in hand that a larger force is no longer necessary.

Four hundred soldiers left here yesterday and 518 privates and eighteen officers were transferred today.

More than a widespread plot against military cantonments had been discovered were denied officially by Colonel W. S. Mapes, commanding troops here.

That drastic measures to combat Red plots uncovered have been planned was not denied, however.

Red Propaganda in German

Intelligence officers conducting raids on places suspected in the Red plot are interested in the finding of a quantity of radical propaganda printed in German and a large silk German flag.

Steel workers discovered the "proclamation" issued by the "Communist party of America," calling on the working men to wrest control from federal troops and establish a "dictatorship."

REDS PERIL TO U. S. WARNING IN SENATE

Washington, Oct. 15.—The federal authorities are in possession of evidence which shows that the I. W. W. and allied Bolshevik organizations in this country are now openly agitating the overthrow of the government of the United States and the substitution of a Bolshevik form of government.

As this evidence is now in the possession of the United States Government, in the Senate yesterday Senator Miles Poindexter, in whose state of Washington the I. W. W. has made great headway, introduced a resolution calling upon Attorney General Palmer to inform the Senate why the Department of Justice has not taken legal action to arrest and bring to justice the agitators who are now openly calling for the overthrow of this government.

The resolution also calls for information as to why alien agitators, who are known to be active in this propaganda, are not deported.

"An conviction," said Senator Poindexter in explaining his resolution, "that the increasing number of strikes based on a desire to overthrow our government, destroy all authority and establish communism, I think the government should take vigorous steps to stamp out anarchy and lawlessness. There is grave danger that a government will be overthrown when it ceases to defend itself."

Under-weight in children means under-nourishment

Every third child is under-nourished, so the experts tell us. And they use the accurate method to determine this—the scales. For their experience has shown that under-weight in children means under-nourishment.

Just 5 pounds below standard weight is enough to put any child one full year behind his playmates—mentally and physically.

Find out tonight whether your child is under-nourished! Weigh him! If under-weight, consult your physician. He will help you correct this, and he will doubtless advise a wider use of milk, for milk builds blood, bone, and tissue. Milk contains all the food elements needed by young, growing children and acts as a safeguard against disease.

INDUSTRIAL PARLEY FLOUNDERS IN SEARCH FOR LABOR-PANACEA

Continued From Page One
Bolshevik agitators as the would-be destroyers of their organizations.

He told how he and his associates had endeavored to secure a postponement of the steel strike until the industrial conference had met and perfected some remedy for existing conditions in the labor world. The men, however, were determined to go out and then it was that the labor officials thought it wiser to abandon their objections and go along with them in the hope of leading the strike in an American way. Unless they had, the I. W. W. and the Bolshevik agitators, who were on the ground and ready to lead the infuriated men, would have taken absolute control of the situation.

His other assertion took the form of a warning against the revolutionary tendency of the Bolshevik and I. W. W., whose ascendancy was growing. He said:

"We are entirely at variance with all that the Bolshevik represent. You may win, but if you win our men and their strike go over on and these men on strike go over on the country telling of their wrongs, it will arouse a spirit of resistance against the strike which you have sown the seed and must bear the consequences."

Arraigns Steel Corporation

Mr. Gompers began by stating that it was not his purpose to criticize any one. Because men were workers, however, was no reason why they were inferior to the highest officer in any corporation. He recited how he had written a letter to Judge Gary last June, but had received no reply. When the representatives of the corporation called on Judge Gary in September after the strike had begun he asked them to put their statements in writing. They did so, and he received a reply in the form of a letter which he said he had received last June.

He arraigned the steel corporation as an aggregation of corporations. The federation of labor was represented by executive officers, workers themselves, who had been pinned at its head to represent that organization as the situation in now so well in hand that a larger force is no longer necessary.

Four hundred soldiers left here yesterday and 518 privates and eighteen officers were transferred today.

More than a widespread plot against military cantonments had been discovered were denied officially by Colonel W. S. Mapes, commanding troops here.

That drastic measures to combat Red plots uncovered have been planned was not denied, however.

CAPITAL BEATEN IN VOTE AT PARLEY

Decision on Steel Arbitration Postponed Until Tomorrow Despite Employers' Opposition

NEW PLAN LIKE PLUMB'S

By the Associated Press
Washington, Oct. 15.—Efforts by the employers' group at the industrial conference to force to an immediate issue labor's proposal that the steel strike be arbitrated failed today, the labor group and all of the public group, except Elmer H. Gary, chairman of the board of the United States Steel Corporation, voting to postpone action until tomorrow.

The conference adjourned until 2:30 p. m. tomorrow, when the arbitration resolution will be brought to a vote.

In casting the vote of his group against postponement of a vote of the steel arbitration resolution Harry A. Wheeler, chairman of the capital group, declared that the representatives of capital believed the time had come for action and that further postponement of so vital and bitterly contested a measure was useless.

Opposed to Steel Arbitration

He said that he did not believe arbitration of the steel strike was germane to the purposes for which the conference was called, that any action with regard to the steel strike would force the conference into a similar position with regard to a large number of other industrial disputes and that, since a fight is in prospect when the resolution is brought to a vote, the opposing forces might as well come out in the open at once.

Protesting against postponement of the steel strike resolution, J. W. O'Leary, of Chicago, insisted that the principle of collective bargaining could not be established unless the conference was called to a large number of other industrial disputes and that, since a fight is in prospect when the resolution is brought to a vote, the opposing forces might as well come out in the open at once.

Proposes Tripartite Control

L. E. Sheppard, head of the Railway Conductors' Brotherhood, today introduced a resolution proposing tripartite control of all industries existing by virtue of "public grants and monopolies. It is similar to the Plumb plan for management of the railroads by the public, labor and capital. For private industry Mr. Sheppard proposed recognition of a right of independent unionism on the part of the board of directors.

John Sparzo, of the public group, introduced a resolution declaring that while the "right to strike should not be abrogated or denied," it should be restricted where stoppage of vital services and government operations are involved.

Farmers Discouraged

Declaring that the "net return for labor, management and capital used in farming is today smaller than the return in any other great industry," and that this discouragement has reduced the output of agricultural staples, the statement said the conclusions of the conference could not be permanent unless they provide for the "welfare of farmers."

"American farmers employ more laborers than any other single industry," said the statement. "The num-

Miss Edith Dow and Sergeant E. H. Conerton Will Marry Tonight

Miss Edith Dow, daughter of Mr. and Mrs. William Dow, 455 Park avenue, Collingswood, N. J., will be married tonight at the family residence to Sergeant Edward H. Conerton, of 132 New Jersey avenue, Collingswood. The Rev. Dr. George H. Neal, pastor of the First M. E. Church, will officiate at the wedding ceremony, which will be performed at 8 o'clock.

HUNGARY HAS FOOD CRISIS

Supplies Reduced to Danger Point by Rumanian Seizures
Vienna, Oct. 15.—(By A. P.)—The food reserves of Hungary, depleted by Rumanian seizures, have been reduced to the danger point, and the most serious crisis since the beginning of the Rumanian occupation is threatened.

The Hungarian food administration reports the reserves only one-third of what they were in September.

The Rumanians today, the officials state, attempted to seize some of Premier Friedrich's immediate following and did arrest two government officials. The international mission protested.

Celebrate Feast of St. Teresa

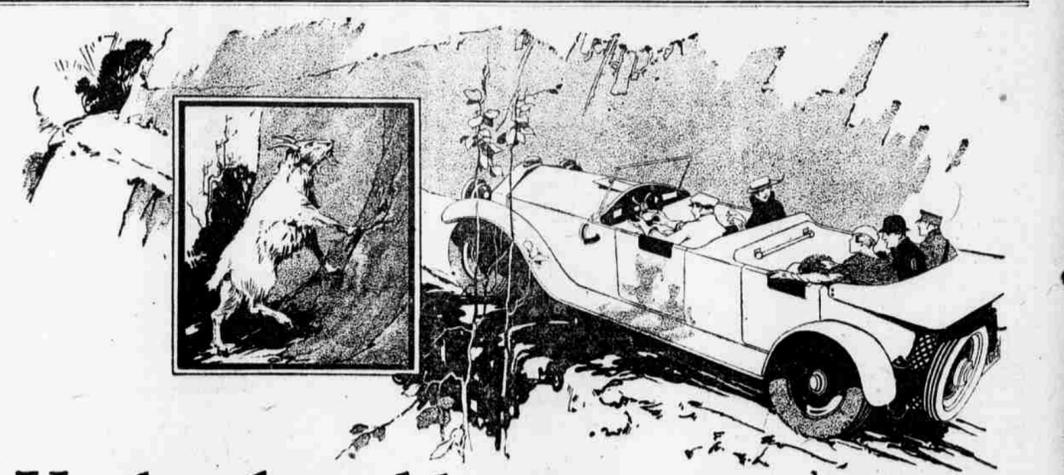

The feast of St. Teresa, foundress of the order of Carmelites, is being celebrated today with special services at the Carmelite monastery, Sixty-fifth street and York road, Oak Lane.

Jake Daubert Feted

Pottsville, Pa., Oct. 15.—Jake Daubert, famous first baseman of the Cincinnati Reds, world champions, was feted by an enthusiastic reception and banquet at Schuykill Haven when he arrived home yesterday. A parade was one of the features of the celebration.

Up the slope like a mountain goat

The Atlantic-fed motor negotiates the tortuous wind of the mountain climb with the ease and agility of the short-horn born to the region. The pounding motor and the threatened back-slide are unknown to the driver who uses Atlantic Gasoline.

Because Atlantic is packed with pull and power that set the wheels awlir in forward flight the instant the clutch engages. Up, up, up you go, conscious only of the thrill of the climb, with never a thought of the propelling force.

Wherever you drive—in the hills or vales or city-streets—use Atlantic Gasoline to get the most out of your motor for the least investment in fuel-cost and repairs to mechanism. Remember the name—ATLANTIC.

EMPIRE PHONOGRAPHS EMPIRE RECORDS

Old Time Melodies

There is a peculiar wistful charm surrounding the simple tuneful melodies that were popular when Grandma was a girl. One never tires of them; especially when they are rendered in such clear, pure natural tones as are possible through the perfected mechanism of the EMPIRE phonograph.

Next time you are tired and out of sorts—or bored—or lonesome—try a concert of old time melodies as an antidote! Let the strains of Old Black Joe and Annie Laurie, of Killarney and the Old Folks at Home, take you back through the years to the sunlit days of long ago.

Or, if it should chance that you do not own a phonograph, come into our store and we will play you favorite melodies on the EMPIRE. You will find it gives to any musical selection on any record a depth and timbre of tone that seems almost impossible for a mere mechanism, perfected though it be.

Empires from \$35 to \$250
