NEW BRITISH LOAN OF \$250,000,000

Proceeds to Retire November Notes and for British Export Requirements

ISSUED IN TWO CLASSES

New York, Oct. 21.—The largest financial undertaking by American bankers, since the end of the war was announced yesterday when J. P. Morgan & Co. as fiscal agents for the British government, said they will offer a new British loan of \$250,000,000 here immediately. Three and ten year bonds will be sold.

Part of the new loan, which will have a coupon rate of 5 1/2 per cent, will be used to retire the outstanding balance of \$135,000,000 United Kingdom notes falling due November 1. The remainder of the proceeds will be made available for British export requirements in the United States.

In a statement on the new offering J. P. Morgan & Co. say: "We have been authorized by the British government to place on its behalf in this country a loan which will give to American investors a British government obligation yielding an attractive rate of return in dollars, and with the right of conversion into sterling bond, which contains distinct possibilities of profit, based on a return to more normal conditions in the exchange market."

The new securities are in two classes, to run for three years and for ten years, respectively, and the conversion privilege, which, in effect, amounts to a call on sterling exchange, will continue through the entire life of the three-year note and for nine years and three months of the life of the ten-year bond.

"The proceeds of the loan, which will amount to \$250,000,000, will be used in part to retire the outstanding

balance of about \$135,000,000 British Government 5 1/2 per cent notes which mature November 1, and the remainder will be available to the British Government for its requirements in this country or for those of British merchants to whom the British Government may sell the dollar exchange. In effect, therefore, this loan not only lifts off the market the exchange, which otherwise might have been sold to meet the November maturity, but also gives an increased buying power to Great Britain for American exports.

"We are taking steps to form a country-wide distributing syndicate to handle this issue and letters to participants are going out tonight. The full details of the issue covering offering price, yield and coupon right, will be announced tomorrow."
