This report will also deal with the results of a searching inquiry into the activities and political strength of the Charter party. The congressman will be told that the Charter party, counting on the support of unreconciled Vare followers, will try to elect:

First. Franklin A. Smith, Jr., as sheriff.

cond. Frank J. Gorman as min-Second. Frank J. Gorman as min-ority county commissioner.

Third. Two or three minority mag-istrates—probably former State Sena-tor Farley and E. P. Carney.

Fourth. One or two councilmen, in the West Philadelphia and northeast

The Moore United Republican campaign committee, unser the direction of Mr. Moore and his campaign manager, has already started to smash the Charter party move, so far as it affects the interests of any candidate on the Republican ticket. The Democrats, it was learned, have also planned to combat the minority drive of the Charter party by concentrating on Edgar W. Lank

The Nujol Treatment as Sickness Prevention

Science, with anti-toxins, serums, and modern sanitation, has done much to prevent dangerous disease; but the diseases so checked are comparatively few. On the other hand, 90% of all diseases have one common originconstipation.

The dangers of constipation are so far-reaching, because the blood receives poisons from an infected mass within, and carries them directly to every organ of the body; and because constipation itself keeps the system in a rundown condition so that any infectious germs from without teadily gain foothold.

Graduates and undergraduates of Haverford College, a Quaker institution, gave 675 men into the service of the United States during the European war, according to figures given out by Dr. Raynor Kelsey, who is in charge of the records.

The number of alumni is less than 1200, and Doctor Kelsey said that practically every Haverfordian, unless incapacitated by age or illness, had taken part in the war.
