traffic is broken up, but the Chinese, the chief agent in it, escapes through his cleverness. It is a most thrilling and sensational tale. The other book is occupied with a more fantastic and improbable theme. A British archeologist has stolen from Medina one of the slipper, of Mohammed and taken it to London. He is pursued by a company of the ancient sect of the Assassins, whose members seek to get back the slipper. The hand of every infidel who touches it or the bag in which it is contained is mysteriously severed at the wrist. The British archeologist is murdered and death threatens every one who is in any way connected with it. For ingenuity of invention this tale has seldom been surpassed. The fact that it is improbable, need not disturb the reader, for no one turns to tales of this kind for anything but entertainment. If they get what they are after that is enough. Stirring Adventure

#### THE BEACH OF DREAMS

By H. DE VERE STACPOOLE, Author of "The Man Who Lost Himself," "The Blue Lagoon," etc. Cloth, \$1.60 Net.

Here's a tale of adventure right! A feminine Robinson Crusoe washed ashore from the wreck of a yacht with two men companions, both of whom she outlives. How she manages to exist alone, with pelicans and sea-elephants as her only companions until she is found and rescued by a sailor castaway from another wreck, makes a fresh and diverting South Sea romance.

providing for a national indiget, per-sons interested in the subject will find Edward A. Fitzpatrick's discussion of it in "Budget Making in a Democracy" most suggestive. Mr. Fitzpatrick orgues in favor of the legislative rather than the executive budget system. That is, he would have the executive depart-ments submit their estimates to the Legislature where they would be col-lated and grouped into a general appro-priation measure. The plan before Con-gress requires the President to submit the budget in its complete form to the national Legislature. Mr. Fitzpatrick objects to this as an undue concentra-tion of power in the hands of the execu-tive.

great problem of suffering by the union of medical ideals with Christian ideals, by utilizing the practical benefits of medical science and our highest re-ligious aspirations. Beginning with the problems of the unseen, he dwells on man's possibilities, his striving, suffer-ing, attaining and vietory. Many help-ful illustrations of the truths set forth are given from incidents in the lives of noted men and women, as Lincoln and Jenny Lind. Touches of humor lighten it occasionally, as when treating of the power of genius he quotes the graphic saying : "Genius is one-tenth inspira-tion, nine-tenths perspiration." So, as an illustration of the way in which much in life is unseen, he tells how a young woman standing on the brink of Niagara remarked to her companion : "Oh, ain't it cute?"
