Wealthy Manufacturer Is Freed by Brigands After Week's Detention

HELD FOR BIG RANSOM

By the Associated Press Washington, Oct. 27.—Release of William O. Jenkins, American consular agent at Puebla, Mexico, who was kidnapped by bandits on October 19, was effected by payment of the \$150,000 in gold demanded by the captors.

The dispatch did not make clear whether the Mexican Government or friends of Jenkins paid the ransom. An inquiry as to this point has been sent to Mexico City by the State Department.

Official announcement of the release of Jenkins was made in the following statement by the department: "William O. Jenkins, the American consular agent who was robbed and kidnapped at a factory which he owns in Puebla, Mexico, on October 19, has been released following payment of ransom, according to a message from the American embassy at Mexico City.

"The rebels who held him near Puebla demanded ransom of \$150,000 in gold. The message said that the third secretary of the embassy, Mr. Matthew E. Hanna, who was sent to Puebla by the embassy, notified the embassy yesterday that Jenkins had sent him a message from within the Mexican federal lines that the ransom had been paid to the kidnappers and that he was on the way to Puebla. The department is awaiting more details.

"The Mexican Government Saturday advised the American embassy that it would omit no efforts to save Jenkins' life.

Jenkins' Father Gets News

Word that Jenkins had been rescued from the bandits was received late last night by his father, John W. Jenkins, of Hanford, Calif., in a brief telegram from Miss Annie Jenkins, sister of the consular agent.

CHILEAN CRUISER SAILS

Government Will Stop Trouble Due to Threatened Revolt in Peru Santiago, Chile, Oct. 27.—(By A. P.)—The Chilean cruiser Esmeralda sailed northward yesterday and other units of the Chilean fleet are being prepared for sea duty.

It is rumored they will follow the Esmeralda. This step on the part of Chile follows insistent reports of a probable revolution in Peru and information that the Peruvian Government is making military preparations in the southern part of that country for the alleged purpose of diverting popular attention from the revolt which is said to be impending.

Officials of the Chilean Government who were interviewed last night did not wish to commit themselves as to the sailing of the Esmeralda, further than to say that the measure was one made against possible events. Information received from an authoritative source, however, is to the effect that the government, while it does not expect a conflict, sent the Esmeralda northward in advance of the Chilean fleet to show that this country was prepared to maintain order on the northern frontier and would not permit revolutionary movements in any way to touch Chilean territory or to involve Chilean citizens or authorities.

PLAN BIG LOCKOUT IN SPAIN Employers May Throw Million Out of Jobs Next Week Madrid, Oct. 27.—(By A. P.)—More than a million persons throughout Spain will be thrown out of employment November 4 if the decision of the congress of Spanish employers at Barcelona, declaring for a lockout, is carried out. In Barcelona alone 200,000 men and women will be affected by the decision.

Governmental authorities are concerned over the situation and are expected to exert every influence to induce the manufacturers to reconsider their action. It is declared that if the general lockout is put into effect every factory in Spain of any importance will be closed. Members of the employers' congress say the decision was taken as a protest against industrial unrest.

Radicalists of the province of Catalonia have called a conference at Barcelona for Saturday to act on the decision.

Reports from Tiflis indicate that new disturbances have broken out in the Russian Caucasus which may endanger the campaign of General Denikine by cutting off his supply of fuel oil from Baku for railway and river transport and may even result in setting up a new front in his rear.

The inhabitants of Daghestan, the mountainous province of the northeastern Caucasus, have recently started a revolt owing to attempts to draft them into his army.

It has long been realized that Denikine's position in Caucasus, owing to political difficulties and also to the absence of discipline among the soldiers in various detachments of his army,

who became unruly if not permitted to loot, it is charged, and are accustomed to living upon the country they occupy. The danger of his situation would be accentuated should the warlike inhabitants of Daghestan unite with the Bolsheviks at Astrakhan, the Caspian seaport at the mouth of the Volga, in which case General Denikine's fleet in the Caspian sea would be cut off.

Helsingfors, Oct. 27.—Official reports of the northwestern army state that General Yudenitch has successfully resumed the offensive southwest and southeast of Petrograd despite the arrival of Bolshevik re-enforcements from the Archangel front.

The white troops have fought their way eastward as far as Tosna, twenty-five miles east of Gatchina, on the railroad to Moscow. This point had been reached earlier by a cavalry raid.

The white troops are also pushing their way northward from Krashnoye Selo toward the Gulf of Finland in an endeavor to reach the coast at a point between Kronstadt and Petrograd.

Reports from Petrograd say the central executive committee (the soviet organization) has decided to close all factories and send the workmen to the front. Women will undergo military training and be formed into a medical corps, according to the same report.

ART IN BABY FINGERPRINTS

Court Decides Them Highest Form of Mural Decoration New York, Oct. 27.—Baby fingerprints on the wallpaper are the finest example of mural art. This was the decision handed down in the Bronx Municipal Court by Justice Robitzek in dismissing a suit to recover alleged damages because a baby had embellished the interior decorations of an apartment by a frieze all its own.

This would be a happier world to live in, the Justice said, "if baby fingers could only make their imprint on the hearts of men and women. I would rather see the print of baby fingers on the walls of my house than have them adorned with the world's masterpieces."
