## Are your corns symptoms of dangerous foot troubles?

YOU think that your corns are caused
by the rubbing of your shoes-by your toes rubbing together-by a shoe that feels too tight although you know that it is the right size!
But these aren't always the real causes of corns! Why do your toes punch into your shoes-and why do shoes that fit when you
buy them soon become so tight that they buy them soo
make corns?
Very often it is because your arch is weak and is letting your foot slide dow: and rub against the toes of your shoe-a and permitting shoe. And when the arch is flattening out, it causes the toes to cramp, lie toc iosely and bring about soft corns between them.

The first thing to do is to get aic the real cause of the trouble-lift the arch of the muscles. Dr. Scholl's Foot-Eazer, applied

## DrScholl's

Foot Comfort Appliances
to the foot, gives imnediate relief! It prevents the foot from sliding down into tho shoe and readjusts the balancing of the body's weight which has been thrown too much upon the toes and the ball. It rests the overstrained foot, and gives it permanent correc ion-preventing the forming of new crrns
While Dr. Scholl's Foot-Eazer is correct ing the fundamental trouble and cause of the
corns, heal them and get your feet in perfect corns, heal them and get your feet in perfect condition by scientific, modern methods. Notice the various Dr. Scholl methods illus-
trated here. See which ones you need for trated here. See which ones you need for
your particular use-then get them at your your particular use-then get them at your
shoo dealer's.
So quick, so easy and so completely satis factory are these remedies that you'll never let yourself be troubled with corns again!
