

LEGION POST IN PARIS
 Permanent Clubroom for Former Service Men Planned
 Paris, Oct. 31.—The organization of Post No. 1, in France, of the American Legion has been started in Paris under the patronage and encouragement of General W. O. Connor, commanding the American forces in France. Headquarters are situated at 45 Avenue Montaigne.
 The organizers, led by ex-Lieutenant Charles Beale and Major Henry S. Otto, of New York, intend to have a permanent clubroom in Paris, where former soldiers, sailors and marines, returning to Paris on business or pleasure, may make themselves at home. The clubrooms will also be for the benefit of several thousand former A. E. F. men, who have been demobilized on this side of the Atlantic. "Free from politics and purely American in spirit," will be the motto of the post.

The truth about the Pipeless Heater—

Is the Pipeless right for your home?

NOVELTY Pipeless Heater, Type H.

NOVELTY Splendid Pipeless Heater.

NOVELTY Pipeless Heater, Type B.

NOVELTY City Palace Pipeless Heater.

Register for Novelty Pipeless

IN THE first place, let us say that there is nothing mysterious about Pipeless Heaters: You are probably familiar with the regular warm air furnace, where separate pipes convey the heat to the various rooms. In the pipeless, all of the heat is delivered at one point through one large floor register and distributed evenly throughout the house.

The Pipeless principle is good. It is here to stay. It is very satisfactory for certain types of houses. But there are many homes that cannot be successfully warmed by a Pipeless Heater.

Different conditions require different systems to give best results. It may be that the Pipeless system is best for your home. If so you should investigate the

NOVELTY PIPELESS HEATER

The NOVELTY Pipeless is a development of the NOVELTY Heaters we have been making right here in Philadelphia for more than 72 years.

We manufacture six styles and twenty-four sizes—the most complete line of pipeless heaters—ranging from \$150 to \$600, which prices include complete installation by a thoroughly reliable NOVELTY dealer. We are therefore able to furnish just the right size for your requirements.

The illustrations show the complete NOVELTY Pipeless "System"—that is all there is to a pipeless heater—no pipes—just one register. The heat from this register circulates through the whole house. And the cold air in the house is drawn down through the outer part of the register to be heated. The operation of the NOVELTY is wonderful, but like most wonderful things is *extremely simple*. All cast parts, of FLEX-O-TUF Iron, giving extraordinary durability.

Of all the heaters we make, the pipeless is the quickest and easiest to install. But once more let us say that a pipeless may or may not be the best type of heater for your particular house. Do not buy a pipeless heater until you talk it over with your NOVELTY dealer.

The following is a partial list of NOVELTY dealers who install NOVELTY Pipeless Heaters and NOVELTY Warm Air Heaters, Steam and Hot-Water Systems
