All were able to return to duty
after they had received treatment.

Mrs. Greenbaum conducts a grocery

7 o'clock last night she kindled a fire
in the heater. A few minutes later
smoke indicated that something was

A spark may have leaped from the A spark may have leaped from the furnace door. At any rate, Mrs. Greenbaum found the cellar afire. After vainly trying to put out the flames, she ran back upstairs and carried out her three-year-old son, Jacob. Then she turned in an alarm.

Firemen from Darby and Colwyn were soon there. While they were fighting the blaze, Mrs. Greenbaum remembered that she had left her savings, \$2000, in a bureau drawer. She tried to re-enter the building, but was restrained.

Smoke Fills Building

When the firemen learned the cause of the widow's distress, they made a heroic effort to get the money for her. But by that time the fire had mounted from the cellar and the building was filled with choking smoke. One after another twelve of the firemen dropped,

Then Captain Ayres and Fireman Butts took hold of the task. Using sponges to protect themselves from the smoke, they managed to get into the room where the money was hidden. Finding the money, after groping about in the smoke and darkness, they returned to the street. turned to the street.

Woman Is Grateful

Mrs. Greenbaum is a delighted woman today, despite the fact that the fire did about \$6000 damage, chiefly to the steel Sh. the stock. She thinks every fireman in Darby and Colwyn is a hero and should

have a Carnegie medal.

After the money had been found, several persons appeared with army gas masks. These proved useful in completing the work of putting out the

flames.

Members of the ladies' auxiliary of Fire Company No. 2 gave their help at the fire. They served hot coffee to the firemen while they fought the flames. While the store was burning, several airplanes from the aviation field at Clearview passed overhead and circled about, observing the spectacle from the air.
