Financial data tables including 'Lighthouse', 'St. Barnaba', 'Eduard', and 'Oil Cans' with various numerical entries.

BURTON CLOTHES

It Cost Us 25 Cents

to climb up miles and miles (so it seemed) of stairs inside the Statue of Liberty on Bedloe's Island, New York

but you men can save at least \$10

by leisurely walking up just ONE short flight of stairs at either of our second-floor stores. The reason why? We will tell you again. (But perhaps you haven't heard about it.) We came into this good old town with carloads of new SUITS AND OVERCOATS for men—made them ourselves, you know, and unloaded them into our new stores on the second floor, where we could save thousands of dollars on rents.

These Two Savings—the jobber's and landlord's—go right into YOUR pocket, for we sell the clothes directly

to you with only our manufacturer's small profit added to the cost of production.

A THIRD SAVING

There's really a third item that enters into our low price—the large QUANTITY BUYING of fabrics and trimmings, which still further reduces our cost of production.

As to Styles and Fabrics

it would be suicide for us to offer anything but the choicest. We have just what particular people want and no tailor can offer superior styles AT ANY PRICE.

Here's a Proposition That'll Knock Old H. C. L. Off of His Lofty Perch

And believe us that in some job these days, but we are determined to do that very thing, and to accomplish our end we will need the co-operation of about 1000 men. So, Mr. Man, if you are one of the "hard hit" just you come here, pick out the suiting you care for, we'll make it up for you at the ridiculously low price of \$29.75, and then, just to jolt old H. C. L. in his mad rush, we make you a present of an
