Refined Sugars Unchanged

New York, Nov. 15.—The refined sugar market is unchanged with local refiners quoting on the basis of 9c less 2 per cent for cash for fine granulated. Sales of raws to the United States sugar equalization board, since November 7, aggregate 222,647 bags Cubas for November loading at 3.8c and f.

NEWS OF FINANCIAL WORLD—NEW YORK AND PHILADELPHIA STOCK QUOTATIONS

WEEK END ADJUSTMENTS BROUGHT LOWER PRICES

Trading in Closing Market Tame Contrasted With Recent Exciting Sessions—Industrials Weak

New York, Nov. 15.—The operations in today's closing stock market were strikingly tame contrasted with the exciting trading of the preceding sessions. Price movements were extremely irregular which, however, carried little significance other than reflecting the familiar evening up of the professional and semiprofessional traders. The real tendency of the market was toward contraction of dealings and narrowing of fluctuations. In consequence, the market for the greater part of the list was found to be thin on both sides.

Overnight developments in the industrial situation influenced an unsettled opening with renewed weakness in a number of specialties, in which wide declines were scored. There was apparently continued liquidation of many speculative accounts which had been impaired by the disastrous declines earlier in the week. While this liquidation was in progress buyers naturally held off waiting concessions.

The selling movement, however, spent its force automatically, but not before the specialties had been repressed from 2 to 10 points and the rest of the list was off 1 to 2 points. U. S. Steel was steadily in supply during the greater part of the short session. After opening ¾ to 105⅞, it dropped to 104¼. Baldwin Locomotive lost 4 points and both Bethlehem Steel and Republic Iron and Steel yielded over 2 points. The motors moved in the same way, Studebaker falling over 2 points.

The buying movement in the railroads which was a feature in the trading yesterday came to a sudden halt and those issues were also in supply and showed moderate losses. Southern Pacific ranging from 108½ to 108⅝ and Union Pacific which opened at 1 point higher at 137½, declined to 135.

There were rallies from these low levels but the market generally ranged substantially below Friday's final figures at the close.

"Whatever goes up is bound to come down" was forcibly and most expensively impressed upon a great many who had been chasing the speculative will-o'-the-wisp in this week's sensational market. Taking the market's lowest quotations as a basis of reckoning, much, if not all of the phenomenal advance recorded in the extravagant bull movement of September and October, was swept away and millions of dollars in "paper profits" evaporated into thin air.

There never was a tree that grew quite up to heaven. In the mad and frenzied chase of souring quotations the Wall Street following sometimes are led to believe they do, only to be brought to a sad awakening.

Recent unheeded warnings of the Federal Reserve Board and other conservative financial interests against reckless and unrestrained speculation in conspicuously highly-inflated industrial specialities culminated this week in the application of drastic corrective measures which precipitated one of the most severe reversals and liquidating movements experienced since the close of the war.

As a result of the radical corrective measures taken to curb the reckless speculation and the dangerously inflated bank credit situation, speculative issues broke 10 to 50 points; losses in several conspicuous cases being far in excess of that range.

The severity of the collapse of the weakly rigged speculative superstructure of the market can be best appreciated from the fact that from the high record average level of 119.62 attained by the twenty active industrials on November 3 the slump carried the average down to 107.15, or virtually wiping out all the advances made since the latter part of September.

Many unfair and little short of criminal accusations have been openly made against the leading financial and banking interests, whose reputations are beyond reproach. No one but those who encouraged and managed the recent speculative orgy were responsible for the collapse. Warnings, danger signals and even pleadings were repeatedly ignored. The inevitable crash came.

It will be well for all those interested to bear in mind that no effort has or will be made to injure the market fabric. All that has been done was to check an extremely dangerous inflation of security values. A bubble has been pricked. Seasoned and representative securities have not, or will not, be injured. To the contrary, when a more orderly state of affairs become established these standard issues will have an opportunity to reflect their real value.

Despite the week's drastic liquidation, important banking interests and their representatives continue to insist that the financial position has not relaxed to an extent that can be regarded as permitting a resumption of bullish activities. They point to the fact that during the week there has been no offering of time money and at the moment 8 per cent is bid for time money without meeting a supply.

Within the last few days some loans were made at 8½ per cent for sixty and ninety days on all industrial collateral and there were reports on the street that as high as 10 per cent had been paid for sixty-day money. Time loans that matured during the week were not renewed, but the loaning institutions insisted on payment being made. The borrowers obtained funds in the call money market.

In brief, the immediate future trend of the market rests solely on money market conditions. Commitments should be made accordingly. Literally the situation still remains where it is a case of "thumbs up" or "thumbs down" on the part of the banking interests.

SUPPORT IS LACKING IN MARKET FOR CORN

Prices Weaker on Resumption of Selling—Quotations on Oats Lower

GRAIN BELT WEATHER FORECAST

Chicago, Nov. 15. Illinois, Missouri, Wisconsin, Iowa, Kansas, Minnesota, North and South Dakota and Nebraska—Fair tonight and Sunday; warmer. Monday and Wyoming—Fair tonight and Sunday.

Chicago, Nov. 15.—Selling of corn was resumed through commission houses this morning and the market was weaker on demoralization in foreign exchange, easier prices for live hogs and favorable weather in the belt. Support was not good.

Clear and cold conditions have resulted in heavier offerings of the cereal from the country and a freer movement is expected. Handlers of the cash article declared that there is a noticeable indisposition to buy the actual here.

The arrivals here were 109 cars.

December opened at 81.29½, to $1.29¾, against 81.30¾ at the previous close, and declined to $1.28⅜. January started at $1.24½ to $1.24⅝, against $1.24⅞, yesterday's last price, and receded to $1.23¾. May was quoted at $1.24⅛ to $1.24¼ at the outset, against $1.24⅞ at the close yesterday, and sagged to $1.23⅝.

Oats lost ground on the action of the foreign exchange market, heavier offerings from the country, good weather for the movement and in sympathy with the drop in corn. Local brokers were on the selling side.

Advices from the seaboard indicated that the demand for heavy oats had been supplied and that the position of foreign exchange was against export business in any cereal at present.

Receipts were 78 cars.

December opened ¼c lower at 72½c and declined to 71¾c. May was quoted at 75c to 74⅝c at the outset, against 75¼c, yesterday's last price, and later sold at 74⅜c.

Leading futures ranged as follows:

	Opening	High	Low	Close
Corn—				
Dec.	1.29½	1.29¾	1.28⅜	1.28⅝
Jan.	1.24⅞	1.24⅞	1.23¾	1.23¾
May	1.24	1.24¼	1.23⅝	1.23⅝
Oats—				
Dec.	72⅜	72⅜	71¾	71¾
May	74⅝	74⅝	74¼	74¼
Pork—				
Jan.				38.75
May				32.40
