Do you need an up-to-the-minute file clerk?

The Philadelphia School of Filing renders a double service.

It not only trains girls to become competent file clerks, but it also stands ready to recommend graduates to employers who are alive to the ever increasing importance of filing. More and more every day, business men realize the need of such efficient

You undoubtedly have an ambitious girl in your office who seems particularly fitted for this work. You will find it a good investment to send her here to either the day or evening classes.

Once she learns the whys and wherefores of filing she will approach her work with more understanding and the aggravation of lost letters will be only a memory.

of Spitzer, Rorick & Company, New York City.

\$500,000 due Sept. 1, 1920 \$1,000,000 due Sept. 1, 1921 \$1,500,000 due Sept. 1, 1922

Callable at 101 and accrued interest at any interest paying period

From letter of E. Constantin, President of the Campany, and other official information

BUSINESS: Established in Tulsa in 1912 by E. Constantin, with only a nominal capital

from which there has been earned its present surplus of over \$5,000,000. The Company now owns and operates two large modern refineries: No. 1 at Tulsa, having a daily capacity of 6,000 bbls., and No. 2 at Devol, Okla., with present capacity of 3,500 bbls., which will be enlarged to 7,000 bbls. by January 1st, making

a total capacity of approximately 13,000 bbls, per day. The Company does a large and profitable business in relining crude oil and marketing its products in this and foreign countries. Its business is well established and constantly increasing. It owns

valuable oil properties in Kansas. Oklahoma and Texas, which with its other contracts insures the Company an adequate supply of crude oil for refining at all times. It owns its own pipe lines connecting the various oil fields, from which it receives its main supply of crude, with its refineries. It owns 668 modern steel tank cars and has recently contracted for 600 additional for delivery within four months. It owns and controls its own gasoline and filling stations, and together with the Indiahoma

and controls its own gasoline and filling stations, and together with the Indiahoms owns two-thirds of the Export Oil Corporation through which it handles its foreign trade. The Constantin Company is, therefore, in the strong position of controlling the manufacture and distribution of its products direct from oil wells to the ultimate consuming market, both domestic and toreign.

MANAGEMENT: The Company has always had an exceptionally able and efficient management, as is demonstrated by its large net earnings and its high standing in the trade. No change is contemplated in the ownership, management and policy of

this Company. Its officers are men of integrity and experience: President Constantin, the founder of the business, is also President of the Export Oil Co., and Vice-President Malloy is President of the Western Petroleum Refiners' Association, which includes the Sinclair, Cosden and other leading independent refining companies.

to extend its pipe lines and increase its tank storage capacity and to very largely

PURPOSE: The proceeds of these notes are being used to pay indebtedness incurred in the construction of the new refinery at Devol and to double its present capacity:

SECURITY: The present note issue constitutes the only funded debt of the Company and is secured by a FIRST MORTGAGE under which is pledged all of its property.

SINKING FUND: The Trust Deed, securing the present note issue, provides for a

SINKING FUND: The Trust Deed, securing the present note issue, provides for a monthly sinking fund of one-sixth of the next maturing installment of interest and one-twelfth of the next maturing installment of principal of these notes.

EARNINGS: Net earnings for the three years, 1916, 1917 and 1918, after payment of Federal Income Taxes and after liber's deduction for depreciation showed a yearly average of \$709,502.99, or over three times the annual interest charge on this issue of notes. These earnings were from the Tulsa Refinery alone, the Devol Refinery only starting to operate about May lat, 1919. The net earnings for the year 1919 (three months being estimated) will be \$1,500,000, and for the coming year, with two refineries and its largely increased working capital, the net earnings

Davies, Auerbach & Cornell, Attorneys, of New York, and Messrs. Breckenridge, Bostick & Daniel, of Tulsa; an appraisal of the refineries, pipe lines, tank cars and other fixed assets has just been made by the Keystone Appraisal Co. of Philadelphia.

We recommend these notes as a safe and desirable investment.

Clocks Uniforms Waiters' & Wai-tresses' Coats,

He traveled from the Pacific Coast to Hopewell, Va., to get it. The \$154,000 included cost of installation. He did more than save money however. He saved time. He secured IMME-DIATE DELIVERY.

Another executive took a day off. He came from Boston to Hopewell. He had figured on paying \$60,000 for equipment. And waiting the best part of a year to get it. He got it without waiting. HE Saved Over Thirty Thousand Dollars.

They come to Hopewell every day. They see. They buy. They Save—time and money.

The great Du Pont war plants are being sold to make way for the new industries that are taking advantage of the facilities offered at Hopewell. Within these stupendous and until recently secretly guarded plants is to be found equipment and material suitable for the needs of practically every industry.

This sale is more than the chance of a lifetime. It's a ONCE-IN-HISTORY opportunity.

In all your dreams for ECONOMICAL expansion you never expected an opportunity like this. You can buy the equipment you need NOW-and get it NOW. And you can buy for future requirements, and make a profitable investment.

You will find equipment that will suggest new industries, new use for waste product that will suggest savings; that will help increase dividends.

Everything offered is serviceable. Much of it is better than new. The "kinks" have been taken out of it by careful operation. It has been tried and tested in actual service. It is cheaper to buy a Du Pont machine in good order than to repair an old one.

The equipment you NEED is ready for you at Hopewell, Va. Ready for IMMEDIATE DE-LIVERY. Ready at prices so low that you would willingly wait if you had to. But you don't have to wait. You save TIME. You save MONEY.

But YOU must act immediately.

Come to Hopewell today.

Special Notices

DONATION DAY NOV. 25TH, 1919.
THE SHELTERING ARMS, 717

Franklin St.—Donations in money, fuel, greceries and provisions, clothing for womes and infants, bedclothing and materials gratefully received. The institution receives, regardless of creed or color, unfortunate young women who, upon leaving the hospital with their bables, find themselves homeless and too weak to work; cares for them morally and physically, instructs them in all kinds of domestic work; and places them (unless returned to friends) in institutions where they can earn a livelihood for mother and child. Deserted wives and motherless children are also temporarily received. A committee of ladies will be in attendance.

Mrs. WM. A. PLATT, Fresident.
