Walks in the city were placarded with manifestoes entailing the Italian workers, and calling upon them not to delay action in favor of their Russian revolutionary brethren. The placards declared that Russia's example, followed by all the enlightened proletarians, and urged the workmen to refuse to make arms or munitions destined for Russia.

SCIOPERO A ROMA FIRENZE E MILANO

In Roma la Popolazione Attaca i Socialisti e li Malmena

Postmaster and Distributed Under Authority of the Post Office of Philadelphia, Pa. A. S. BURLINSON, Postmaster General.

Roma, 3 dicembre.—Lo sciopero generale è stato proclamato a Roma, Milano e Firenze. A Milano soltanto si ebbero a deporre disordini di una certa entità e due persone rimasero uccise e parecchie altre ferite.

Due dei feriti di Milano morirono poi nell'ospedale. Durante una dimostrazione a Roma fu fatto fuoco sopra i carabinieri e questi più tardi ripresero al fuoco uccidendo una persona e alla mezzanotte tutti i pubblici servizi funzionavano regolarmente. Il Popolo Romano e l'Osservatore Romano sono gli unici giornali che si pubblicano nella capitale. Nelle altre tre città vi sono state dimostrazioni di socialisti da una parte e di nazionalisti dall'altra. Alcuni deputati socialisti passando in Roma, per piazza Colonna, furono insultati e per piazza Colonna, furono insultati e

salvati dalla forza pubblica dall'ira popolare. Straordinarie misure di polizia e militari sono state prese dalle autorità. Riparti di truppa stazionano nelle vicinanze della Camera dei Deputati, ove sono state piazzate anche delle mitragliatrici pronte per qualsiasi eventualità. Carei annati, perovono le principali vie della città, mentre reparti di cavalleria e di carabinieri montati stazionano nelle piazze.

La seduta alla Camera dei Deputati è stata ripresa nonostante che i socialisti avessero fatto proclamare lo sciopero generale per protestare per essere stati battuti durante le dimostrazioni di lunedì sera.

Noni muri della città sono stati affissi dei manifesti che fanno appello ai lavoratori per un'azione in favore del rivoluzionario russo, e di rifiutare dal fare armi e munizioni destinate per la Russia.

L'On. Orlando è stato eletto presidente della Camera con voti 251 contro 143, ricevuti da Lazzari, candidato dei socialisti. Prima della detta elezione i deputati socialisti prestarono il giuramento e la cerimonia diede luogo a qualche incidente. Il Deputato Abba di Genova disse: Io giuro, ma falsamente. Il Deputato Romita, socialista, non intervenne alla seduta perché considerato in atto per le percosse ricevute durante la dimostrazione di lunedì sera. I compagni di lui alla Camera lanciarono invettive contro Nitti e specialmente contro il generale Aioriozi, ministro della guerra, che accusano di permettere agli ufficiali di battere i socialisti.

A vice-presidenti della Camera sono stati eletti gli onorevoli De Nava, Meda, Ciuffelli e Brenzoni.

Mexicans Vote for Bull Fights. Mexico City, Dec. 3.—(By A. P.)—By an overwhelming vote the Mexican Chamber of Deputies yesterday passed a bill restoring bull fights. The Senate will vote on the measure today.

6,000 People Daily Start This New Teeth-Cleaning Method

All Statements Approved by High Dental Authorities

Teach Children to Employ It

When you see what Pepsodent does, teach the children to employ it.

Brushing is inadequate for saving teeth, and millions of mothers know it. The film will wreck them if you don't combat it.

This ten-day test will show you how to fight the film. It will point the way to whiter, safer teeth.

It will tell you how the children can avoid some troubles that you know.

See that they do it. There are few things more important.

Millions of teeth are being cleaned in a new way. And 6,000 new people daily are writing for a ten-day test.

Everywhere the results are seen in teeth that glisten—teeth with envied luster. Ask the owners and they will tell you that Pepsodent has done it.

But this means more than white teeth. Those careful people are fighting film, and film is the great tooth wrecker. Most tooth troubles are nowadays traced to it.

Film—the Chief Enemy

Film is that viscous coat which you feel with your tongue. It clings to teeth, enters crevices and stays. The tooth brush does not end it. The ordinary tooth paste does not dissolve it. So much remains to cloud the teeth and it may do a ceaseless damage.

Film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus well-brushed teeth, as millions know, discolor and decay. And serious tooth diseases are alarming in extent.

Science Now Combats It

These facts have long been known. Dental science long has sought a way to daily fight film. But the only way seemed periodic dental cleaning to remove the film and tartar.

Now science has discovered an efficient film combatant. Able authorities have proved it by convincing clinical and laboratory tests.

For home use, the method is now embodied in a dentifrice called Pepsodent—a modern, scientific tooth paste. And, to show its effects, a 10-Day Tube is being sent to anyone who asks.

Make This Simple Test

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

This method long seemed impossible. Pepsin must be activated, and the usual agent is an acid harmful to the teeth. But a harmless activating method has been found. Years of tests have proved that. So now this active pepsin can be every day applied.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

See the results, and our book will tell you how they come about. Then decide for yourself between the old ways and the new.

The test will be a revelation, and you owe it to yourself. Mail the coupon to us today.

Eye Talks

No. 191
By Joseph C. Ferguson, Jr.
Our Next Talk Wed., Dec. 17th
TREATING STYES

STYES are one of the commonest prevalent forms of eye trouble to which people seldom pay sufficient heed.

They are generally an indication of eye-strain, which causes a tremendous drain of nervous energy.

If you are subject to stress, the best and safest thing you can do is to go to an Oculist and have him examine your eyes.

Whenever your eyes need attention, remember what you think causes the trouble—go to an Oculist for an examination.

Only in the event that glasses are needed will they be prescribed.

In that case have them made by a prescription optician.
