

**\$4000 HOARD IN HOME OF WOMAN FOUND DEAD**

**Aged Recluse Seldom Ventured From Shuttered House—Police Seek Relatives**

Cash and diamond rings valued at more than \$4000 were found last night in the home of Miss Ida Baisel, 844 North Ninth street, who was found dead there yesterday with two dogs standing guard over her body. The recluse, who was also known in the neighborhood as Ida Baisel, was a woman advanced in years who seldom ventured from her shuttered house. Deputy Coroner Joseph Ward, who investigated, found the woman's little treasure hoard in a purse, hidden in an old market basket. There was \$3150.80 in cash and two large diamond rings worth between \$500 and \$600 apiece. Police are searching for the woman's relatives. It is said she had a brother living in this city. The coroner's office said death was due to natural causes.

**Safeguarding Your Fuel Supply**

Large users of coal—railroads, traction lines, central stations and big manufacturing plants—find in the present unsettled conditions a source of anxiety. They must be certain that they have eliminated—so far as possible—all chances for failure in their fuel supply.

To those having their own mines we offer engineering and management service that reduce cost of production as well as giving assurance of supply.

To those contemplating the purchase or sale of coal mines we offer services as independent appraisers.

Having developed our business from small retail coal merchants, 36 years ago, to operating twenty-eight mines with an annual capacity of thirteen million tons, we believe we have a knowledge of fuel production and distribution that you will find of value to your company.

If you have a fuel problem, we will be glad to assist in its solution.
