My dear Mrs. Wilson—I attended and enjoyed so many of your lectures and I wanted to ask two or three questions, but you were so surrounded by questioners and I was obliged to hurry away so early, that I had to give it up. I wanted to ask what to use in cleaning aluminum ware. Putting them over the fire with nothing in them and letting the stains burn off seems to do pretty well. Is that all right?

I think you said not to put salt in the vegetables while boiling. How about potatoes, carrots, onions, etc? Then I would like to ask what articles of food those subject to twinges of rheumatism had best leave out and what would be good for them to eat.

Will you kindly answer through your columns of the paper? Thank-

SYNOPSIS

At boarding school, where Virginia West met Kathleen Foster, a friend-

ship was formed between the two girls that persisted after Virginia was re-

moved from the school because of her infatuation for Jimmy Anderson, a young college man. Kathleen's en-gagement to Bill Lyons did not worry

that young lady. She was not serious, but Virginia was. Mrs. West

discovers that her money is running low and wants Virginia to marry a man with money, which she refuses to do. Mrs. West is finally forced into accepting Jimmy as a son-in-law, and Virginia goes to visit the Anderson family expecting to be mar.

Dear Cynthia—Please print these few lines to Bachelor. Thank you:
Dear Sir—I certainly would enjoy the pleasure of shaking hands with you.
I am about to reveal a little romance I had with a little girl whom I trusted and honored. I thought there was none like her. I was born and reared in New Mexico. About three years ago a band of Mexican bandits raided the border, committing crimes and looting. A squad of rangers was formed and I volunteered. We chased the bandits far into Mexico. Finally we had to withdraw, as our search was fruitless. We we were in the rugged hills of Mexico four days when we again reached the border. We were arrested for breaking the international laws and for crossing the border without orders.

"Oh, why ain't it me, with nothing to live for."

Suddenly Mrs. Rifkin rose, her face all washed now of its rouge and the elaborate coiffure fallen, showing dark roots.

"You're so young. My dear Mrs. Wilson—Would you kindly tell me if you know of anything that will take away from fresh butter a rancid taste? I shall be so much obliged.

The psychology of feeling well dressed and well groomed is just as important for school children as business people. A little well-chosen embroidery, even on a school dress, encourages an appreciation of irdividuality and is well worth while.
