Tank up with Atlantic

When you need gasoline, pull up within hose-length of the well-known red pump marked "Atlantic." For that is the sign of the Atlantic Power House, and a good sign it is.

Throw out your clutch, slip into neutral and apply the brake. Tell the man to grind out a tankful of pure, powerful Atlantic-the motor-fuel that banished all toll-gates on the road to Engine Efficiency.

When the cap is screwed on and the change jingles in your jeans, you're all set for a spin. The call of the open road can be heard and answered in fine fashion. Every lane is a king's highway to the motorist whose car is Atlantic-propelled.

Speed? The law is the limit. Power? You couldn't use more. Make no mistake, there's just one motor-fuel that answers to the name "Atlantic." Be certain that you ask right out loud for Atlantic Gasoline. Atta boy!
