Ready for a New Week With New Fashions and New Interest in the January Sales

A Famous Portrait Painter Was Engaged Upon His Own Portrait and asked his intimate friend, standing by, for his opinion of the likeness.

The reply was, "It would be better if you could keep to your own portrait, but you seem to be trying to improve upon your own face."

There is a great deal in the manner of bringing truth forward in such a way that it is not overpainted and made ineffective.

After all, the public is the jury which has the casting vote. Very few individuals have any true sense of

invention. And your own shadow often falls behind you late

in the day. Strength, sagacity and a straight line are the safest in the long run.

MPORTANT because it brings two very interesting new fashion tendencies.

One is the "costume" coat, a cleverly designed garment of silk-and-wool duvetyne, partially fitted into the figure at the waist line and giving the appearance of a smart tailored suit. There is hand embroidery on the coat panels or down the sides and back of the skirt part, on the cuffs and the long square-end shawl collar. In one case the collar and part of the cuffs are

Exquisite Quality Just Opened ONE group of sets marked to sell for \$300 each is in a combination of red and gold, the result of what is known in the pottery world as a two-fire process, the gold being right over the red, giving the effect of an overlaid lace. These are sets of the most superb quality, each comprising 106 pieces.

Another French group is composed of 106-piece sets in a very rich combination of black and gold, always a striking and attractive effect in dinnerware. The price of these is \$150 a set.

If You Make 1920 a Year of Music

it will be one of the most enjoyable years of your life. And it is not too much to predict that it will be a year of greater achievement with you.

Because we think of music chiefly in terms of entertainment, we do not give it the credit it deserves for

We all know the adage, "All work and no play," and music comes under the head of play; it is a relaxation. Every one is better for an hour or two of music-better in spirit and better in mind.

The Player-Piano Brings Music to Every One

You need not be a trained musician, or have a musician in your home in order to get the benefits of music. The player-plane has changed all that.

With a player-piano you can have good music whenever you want it, better music than any but a very few people can make by

But it is important to get a good player-piano, one that is rich in tone and natural in expression. Even with the great strides made in the past twenty years in player-piano development, there is still a vast difference between the fine mechanisms and the inferior. At Wanamaker's you will find Ampico reproducing pianos and

Angelus player-pianos, the greatest two reproducing mechanisms in the musical world. And they are associated with such noted pianos as the Chickering, Schomacker, Emerson, Haines Bros., Lindeman, Marshall and Wendell, J. C. Campbell and the cele-
