TASTY MEAL-WOMAN'S EXCHANGE-ADVENTURES WITH A PURSE-CARELESS BREAKS-CYNTHIA

MRS.WILSON PREPARES APPETIZING DINNER

Four Rules for Proper Preparation and Cooking lems, bring them to Mrs. Wilson. She will be glad to answer you through these columns. No persome Food

for Evening Meal, Use eups and chill and serve with stewed When Pork Chops Are Used

By MRS. M. A. WILSON

(Copyright, 1926, by Mrs. M. A. Wilson, Att year old son, "you certainly can feast us when you want to—yeal cutlets and

THE actual preparation of our food us just dying for some; let's give mother a yot of thanks."

The bones from the chops were used for unking the barley broth. stantial dishes in an attractive manner, so that, if mother is ill or is called from home, daughter can step into her place and serve the family attractive food.

Bring daughter right into the kitchen and start from the very beginning and step by step, show her the fundamental principles of good housewifery. The first essential is cleanliness; this is absolutely necessary. The utensils, the kitchen and her hands must be serum.

A Japanese Play

Rule 4—Learn to serve food in the propen manner, as for example: Quite recently I visited a home and the menn for the evening meal was: Fried pork chops, mashed pointoes, stewed to-matoes, celery and bread and butter. The mother cooked the chops and when ready to serve piled them one aton the other on a small platter and then there are the eldest daughter say: "Oh, mother, pork chops make me sick—you always have them on Thursday and I'm so tired of them."

After the meal was over I had a long and measure accurately.

We went to market and selected One and one-half pounds of pork chops, cut four to the pound.

One quarter peck of potators, One bunch of young beets,

Dot one tablespoon of butter over the for this, neese. Bake for twenty-five minutes

About Writing Plays

absolutely necessary. The utensils, the kitchen and her hands must be scrupulously clean.

The second rule is economy. By this I mean real frue economy that prevents all waste. You know it is extravagance to use sugar, butter and eggs in large quantities with the idea that the dishes will be rich, whereas, on the contrary, the liberal use of these expensive products frequently causes failure.

The third rule is: Take time to measure accurately. Care and deliberation are the real secrets of success. How often have we seen splendid cooks dash and slap materials together and then have a failure on their hands and most willing to blame everything in sight but their own careless methods. Take time and measure accurately.

But a Lagrage tessary food in the failure of Womon's Pags:

Dear Madam—Please ict me know where to send a play for moving pictures, if anybody writes one. And I also want to know if the writer has to describe all the scenery in his play. Do they accept a play if it is written in Italian?

Send your play to any one of the motion-picture magazines publish a directory of studios in the back pages. You can get some addresses from there. Nothing but the plot need be described by the writer. I am sure that a play written in Italian would not be read. It would have to be written in English. The second where to send a play for moving pictures, if anybody writes one. And I also want to know if the writer has to describe all the scenery in his play. Do they accept a play if it is written in Italian?

One shop is baving a sale of searfs, all at reduced prices. One in brown, soft and woolly with tan stripes, has been reduced from \$5 to \$6.50. Then, there are others, in plain colors, sith and wool, which have been reduced to \$5. The nice part of it is, you know they are good value, for these scarfs are at one of Philadelphia's oldest and best

I once said that it is in out-of-the-way corners that one finds the best things. But not always. For like the man who sought the four-leaf clover you may have been looking all around for something extra nice in the way of a bun or cake for breakfast or ten, where all the time you can get some of a bun or cake for breakfast or ten-when all the time you can get some-thing right in the convenient center of town. I speak of a nut cake. In the appearance of the cake it is much like a coffee cake, with white icing. But instead of raisins it has delicious crushed nuts in all sorts of unexpected nooks and crannics and, of course, it is fragrant with aromatic cinnamon. And here is a secret—if you let it get 5. A good paste for whitening and softening the hands is made of myrh, honey, yellow wax and rose water.

5. Discarded house slippers make convenient pockets for shoes or slippers if the tops are cut off and cretonne is attached to the soles.

SILK CREPE AND ANGORA

"CINDERELLA'S DAUGHTER"

By HAZEL DEYO BATCHELOR

Copyright, 1920, by the Public Ledyer Company

Synopsis
Kathleen Foster and Virginia West, whose lives first touch at boarding school, are still friendly in later life, Kathleen, for a purpose, and Virginia through genuine fondness. Virginia at the age of twenty has drunk deep of the cup of experience. Married to a poor man, she has known comparative poverty, and his death before the birth of her baby has changed her from a girl to a woman. Kathleen has been engaged but broke the engagement because the man was poor. In the meantime he has in-herited a legacy and Kathleen, who has always liked him better than any one else, wants him back, Virginia has determined to use her one talent and to go on the stage to support her-self and her baby. She asks Bill to

wonderful thing that could happen to

wonderful thing that could happen to her.

She had some coffee and toast at a little restaurant nearby, and then took a car downtown. Her heart was beating fast and she was frightened. She had no idea how to proceed. The roar of the city engulfed her, swept over her, but she steadied herself and went into a drug store where she copied some names and addresses out of a telephone books into her little pocket tablet. Then she proceeded to the offices of one of the largest and best-known producers in the city. Walking bravely up to a very much befrizzed young person who, in an expensive tricotine frock, sat at the desk and tapped languidly with a pencil, she handed over her card and asked to see Mr. Atkins. Mr. Atkins

Teeth Can Be Without Film

All Statements Approved by High Dental Authorities

Perhaps your teeth are clouded by a film. Most teeth are, more or less, save right after cleaning in a dentist's chair. The cloudy film looks like the teeth, and you think the teeth are clouded. But it is the film. Remove it and see how

That viscous film which you feel with your tongue is the cause of most tooth troubles. It clings to teeth, enters crevices and stays. The tooth brush does not end it. The ordinary dentifrice does not dissolve it. So it stays - much of it -

teeth look then.

and may do a ceaseless damage. That is why so many brushed teeth discolor and decay. You leave the film, and that is the great tooth wrecker. Despite the tooth brush, statistics show that tooth troubles are constantly increasing.

How Teeth Are Ruined

That film is what discolors-not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. Dentists call the film "bacterial plaque." Those germs, with tartar, are the chief cause of pyorrhea.

Dental science has for years sought a way to combat this film. Periodic dental cleaning removed the film and tartar. But what was needed was a daily film combatant.

It has now been found. Convincing clinical and laboratory tests have amply

proved its efficiency. Able authorities endorse it. And now leading dentists all over America are urging its daily use.

For home use the method is embodied in a dentifrice called Pepsodent - a scientific product. And, to spread the facts, a 10-Day Tube is being sent to anyone who

Now Millions Know

Now millions know by actual test what Pepsodent can do. Everywhere you see the results in whiter, cleaner teeth.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day com-

Pepsin long seemed impossible. It must be activated, and the usual method is an acid harmful to the teeth. But science has discovered a harmless activating method. And now this film combatant can be every day applied.

Pepsodent needs no argument. The results are quick and apparent. See what it does, read the reason, then judge it for

vourself. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film

disappears. Compare the results with your old methods. See the effects you never saw before. The test will be a revelation to

you. Mail the coupon to us today.

Pepsodent

The New-Day Dentifrice

The scientific film combatant, which leading dentists everywhere now advise for daily use. Druggists everywhere are supplied with large tubes. Millions of teeth show its benefits.

Ten Days Will Tell

Look now at your teeth, then look in ten days. You will see what this new method means to you.
