Sizes That Please Your Fancy

NOT the least attractive of El Producto's popular features is the variety of shapes and sizes in which this mild Havana cigar is made.

Beginning with the generous sized Puritano Fino at 11 cents straight, El Producto shapes include all the sizes that appeal to smokers. On one hand, there are the full wrapped Escepcionales and Favorita for men who like a thick cigar; on the other, the Panatela, Queen and Quaker for men who prefer longer and thinner types.

The Blunt and Corona shapes are "over-sized" smokes of infinite satisfaction, while the big "Supreme" size has a host of patrons among hearty smokers.

Every El Producto has the same mild, mellow quality and distinctive character that have made the cigar so popular.
