Always Good Weather in the Store, With Lots to See and Opportunity to Save

There Are Ninety and Nine Blessings in Most Lives

to one misfortune where good health, intelligence, integrity, common sense and energy exist.

Some Short Coats That Women Like Very Much

First of all, the pretty tweeds, cotton gabardines in a natural colon and a sort of Bolivia weave in high colors. They have big shawl collars of natural racoon and they are very smart indeed for sports wear. \$57.50

The handsomest of all, however, are the short coats of black silk plush, delightfully warm and comfortable, with large collars coming up well around the face-natural racoon, blended squirrel, wolf and maison

These are among the most fashionable sports coats of the season and the prices are from \$100 to \$157.50. (First Floor, Central) .

Young Women's Winter Coats Are Now \$10 to \$40

What with more cold weather coming, according to the reports, and many weeks of winter yet to wear them, these ought to be of interest to any young woman in need of a warm, comfortable and becoming coat.

There are sports coats and coats for better wear-coats of velours, of novelty wool coatings, of soft thick woolens in good colors in different weaves-all made in good, practical winter styles. Some have fur collars, most all are lined and interlined as well.
