BIG TRUCK SHOW

Industrial Inventions, by Their Utility, Able to Sneer at **Dame Nature**

LAST TWO DAYS OF SHOW

prophets they have made a record which has enabled them to bat 300. The Philadelphia Automobile Trades Association selected last week for its exhibit. The weather behaved to its liking. It seemed that capricious Dame Nature was hypnotized by these solons of the industry. The weather last week was just to their liking. It suited, in turn, both for open and closed cars.

Now the motortruck men are having their innings. First there is a streak of real frigid weather. Shen a snow-storm, a streak of sunshine, followed by rain; then a freeze up again, making the roadways like a glassy surface. Then more snow. Could any more diversified weather conditions be planned to test the durability and commercial value of the motortruck? What has been the result? Wherever you go you see the sturdy, powerful truck winding its way over the slurby, ley streets, the snow-covered roads challenging every condition. It seems to have no trouble getting traction. It has even beat nature at its own game.
