Ambassadors' Council Prepares for Reply to Refusal to Surrender William

HOLDS INITIAL MEETING Paris, Jan. 26.—The reply to the refusal of the Dutch Government to comply with the demand of the Allies for the surrender of former Emperor William was the first subject discussed today at the initial meeting of the council of ambassadors, created to carry on the unfinished routine work of the Supreme Council of the Peace Conference which disbanded last week.

It was decided that the French legal experts available should go into all aspects of the case and prepare the reply, which probably will be submitted for approval of the council early next week.

The discussion in the council did not disclose the trend of opinion among the members further than that it appeared to be the view that the legal phase of the question had become chief concern.

The council was presided over by Premier Millerand, Hugh C. Wallace, the American ambassador, was present with the other members of the body.

After disposing for the day of the extradition question the council decided to give the representatives of the Jugoslavs four days additional time to reply regarding the proposed compromise on the Adriatic question, including the disposition of Fiume. This carries the question along until Wednesday.

The council received a letter from Stanislas Patek, Polish minister of foreign affairs, calling attention to the possibility of a strong aggressive movement by the Bolsheviks against Polish territory and recommending that a plan be adopted for defensive measures.

The letter asked that the question be called to the attention of Marshal Foch.

The council also had before it a note from the German plenipotentiaries raising certain points regarding the make-up of the boundary commissions provided for by the treaty of Versailles. The questions were raised by the Germans because of the nonratification of the treaty by the United States and the consequent lack of American members on the commissions as provided for by the peace document.

The absence of the Americans also raised the question as to the presidency of the commissions to control the plebiscite in the Teutonic territory, on the Czechoslovak-Polish frontier. It was pointed out that the French member would act, pending the qualification of the American member through the ratification of the peace, should such action be taken by the United States Government.

Basle, Jan. 26.—(By A. P.)—M. Bezzi, minister of labor in the Ukrainian cabinet, has telegraphed to the Allied council at Paris asking that the blockade be lifted at least so far as it relates to drug and sanitary material. He says this step is necessary to enable Ukraine to fight the epidemic of cholera and typhus now raging in that country.

Crow for Senator Boom Seems Lost Continued from Page One

Heated that he does not hesitate to oppose the forces of disorganization that are getting such a hold in this country. He represents no faction and he has no funds," he said.

The same gentleman discounted the popular idea that it would be impolitic to nominate a Pennsylvania Republican for President on the ground that the state is so overwhelmingly Republican that insomuch as Pennsylvania is certain to deliver her electoral vote to whoever may be nominated on a Republican protective tariff platform, and as other powerful states are in the doubtful column, it would be the logic of the situation to select a candidate from one of the latter.

Assumption Wrong, He Says "The assumption is entirely wrong," declared the gentleman interviewed. "While it is true that Pennsylvania is solidly Republican she occupies even in that a unique position.

She is surrounded by doubtful states. That have swung back and forth from Republicanism to Democracy with disappointing frequency in recent years: New York, Ohio, West Virginia, Maryland, Delaware and New Jersey.

"Pennsylvania has large interests in every one of these states, and powerful interests of course, but powerful industrial claims, and one of them would have a greater personal and neighborly interest in a Pennsylvania President than in one chosen from a Middle West doubtful state, or from the Far West.

"For that reason I regard Governor Spruell not only as an available but as a probable candidate for the presidency. Of one thing it is certain, there would be less difficulty or perhaps I should say greater facility, in financing his campaign than there would be for some other who are very prominently mentioned as candidates for the chief magistracy. There are a number of men who would, I am sure, accept the vital responsibility be ready at this moment to underwrite the expenses of a Spruell campaign.

If the Keating dinner is primarily intended as a boom for Senator Knox as a prospective successor to Senator Knox I am of the opinion that it will fail of its purpose. If on the other hand it is intended as a launch of the Spruell candidacy for the presidency, it will have a more important bearing and may be the pulse that will start the new lanche down the mountainside of Republican national politics.

GERMANS PROTEST WAR CRIME TRIALS

"Revenge!" Cry at Mass-Meeting—U. S. Applauded for Keeping Aloof From Demand

Berlin, Jan. 26.—(By A. P.)—A mass-meeting in protest against the extradition by the Allies of Germans who are wanted for trial was held yesterday by patriotic societies in the Circus Busch. A large crowd attended. Margaret Behm, conservative member of the Assembly, one of the speakers, was interrupted by cries of "Revenge! Revenge!" "Not yet, not yet," she replied. "The patient."

A National Liberal member of the Assembly declared that although the peace treaty obligated Germany to surrender the desired men, the promise was null and void before the "Supreme Judge." He demanded that the government use the utmost force in resisting the attempt to extradite the men. The chairman of the meeting was applauded when he announced that the United States was holding aloof from the extradition issue.

BOASTS SOVIETS CAN FIGHT WORLD

Organizations So Strong, Need No Supporting International Revolutions, Envoy States

HAVE HUGE STORE OF GOLD

Washington, Jan. 26.—Russian soviet organizations have become "strong enough to fight the world," Ludwig C. A. K. Martens, soviet agent to the United States, told a Senate investigating committee today.

Because of this, he said, the soviets have ceased to urge international revolution to support them.

The Russian soviets have "between \$250,000,000 and \$300,000,000" in the public treasury, Martens said, which it was now desired to spend in foreign countries on the purchase of necessities.

There was now no gold in the hands of private banks or individuals in Russia, he added.

Martens, who began his testimony last week just before the committee postponed its sessions, was the first witness to be called today. He will be followed by members of his embassy staff.

Particular interest was lent Martens' testimony because of his statement that he would testify to facts involving Department of Justice agents in radical activities.

Compulsory Army Plan Strikes Snag

gressmen are not anxious to face this issue.

If universal training does not go through this time it will probably not get through at all. The circumstances are more favorable for it now than they will be likely to be again. Members of Congress are not explicitly pledged against it. In the next congress there will probably be many men pledged against it, if the issue remains open until next fall.

The result of raising the issue is that many congressmen from the rural districts will probably be pledged against it. There is no division between the parties on this subject now.

Democrats May React

This will probably not remain the case long. The Democrats will probably react to their old position of opposition. The Bryan influence will be against compulsion.

The issue is troublesome, not only to congressmen who want to come back, but to presidential candidates. One of the most interesting questions of the campaign has been whether the country would or would not accept a military candidate for president.

Up to the present General Wood in spite of his identification with the military idea, has been the leading Republican candidate, at least among the people. Latest reports indicate that his support in the West is weakening.

The anti-militarist issue is beginning to tilt against him. He is the foremost advocate of universal training. If a fight on the subject between the House and the Senate gives it more publicity, the stir in the rural districts cannot fail to affect unfavorably his candidacy and that of General Pershing.

BOLSHEVISTS TAKE U. S. MEN PRISONER

Eight Officers and Several Red Cross Workers, One a Woman, Captured

CONSUL'S CABLE GARBLED

Chita, East Siberia, Jan. 10 (delayed).—Colonel Blunt and seven other American engineers, Miss Ford, Captain Charette and several other members of the American Red Cross, and an entire Polish army, composed of former prisoners, have been captured by the Bolsheviks at Kluchinskaya, according to a telegram received from Joseph H. Ray, former American consul at Irkutsk.

The dispatch from Mr. Ray was sent from somewhere beyond Nizhniudinsk January 14. It was somewhat garbled in transmission. Kluchinskaya is on the trans-Siberian railroad, 100 miles west of Nizhniudinsk.

The Czechs are fighting a rear-guard action with the Reds near Krasnoyarsk. Bolshevism is gaining in Chita. Ernest J. Harris, former American consul at Omsk, is still in Chita.

The British, Japanese and French missions and many members of the American Red Cross have arrived in Harbin.

[Kluchinskaya and Nizhniudinsk are west of Lake Baikal, 600 miles from the region of Verchneudinsk, east of Lake Baikal, where American and Czech troops recently were engaged with General Scuratov's anti-Bolshevik forces.

The Poles captured undoubtedly are prisoners taken by the Russian army early in the war and sent to Siberia. There, after the revolution and when the Czechs gained the ascendancy, they were armed and impressed into the anti-Bolshevik forces, as was done also with large numbers of Serbians who had been prisoners of the Russians.

A Bolshevik wireless communication received in London January 13 announced the capture by the Bolsheviks of seven columns of Polish rifles, together with sixteen guns and 20,000 rifles. A dispatch from Harbin January 20 said there was an unconfirmed report in Harbin that the Bolsheviks had destroyed a Polish division near Krasnoyarsk.]

Washington, Jan. 26.—(By A. P.)—No report regarding the capture by the Bolshevik forces of American railway engineers and Red Cross workers at Kluchinskaya, Siberia, had been received today by the State War Department or at national headquarters of the Red Cross.

The Colonel Blunt referred to in press dispatches as having been captured was

London, Jan. 26.—(By A. P.)—A wireless message from Warsaw, undated, gives a Bolshevik rumor that Red cavalry have entered Persia and India.

An official statement issued by the soviet government at Moscow says the Bolshevik peasants' corps has reached the Chinese frontier in the vicinity of Kobdo, on the western border of Mongolia.

Helsingfors, Jan. 26.—Reports from Dorpat say a revolt has broken out in the Red garrison at Moscow. Another report says the people's commissaries at Moscow have moved to Tver, owing to the spread of the plague.
