realization of such projects. But the simple request that articles made in the United States should be marked according to the metric system as well as the old, clumsy English measures calls merely for the application of a little common sense.

THE TREATY DEADLOCK IS A SENSELESS DISGRACE

When the Inevitable Break Comes the Available Courses of Action Will Be Just What They Always Were

GRANTING, as most sane persons do, that ratification of a treaty is necessary to the official conclusion of a war, there are only five methods by which the United States can achieve peace with Germany. Senatorial approval of the treaty of Versailles without interpretations, reservations or amendments would bring about this result with clarity and speed.

THE PULL NO LONGER WORKS

IT HAS taken only three weeks for the inspectors who owed their appointment to the contract of those work they inspected have been in the habit of doing their duty. Director Winston ordered that certain work be done by the street cleaners. After a suitable time the inspectors reported that the work had been done. The director went over the streets and discovered that the work had not been done.

THE "L" TO FRANKFORD

DELAY in the work of the Frankford elevated hindered the real estate boom and the better general development of community affairs that will come about naturally in the northeast section of the city with improved transit. West Philadelphia became a different place after the first subway system was built and put in operation.

A DIFFERENCE

MR. TAFT led in a presidential ballot held by an uptown church club. Mr. Hoover was a close second. General Wood trailed. Senator Harding didn't even trail. Those who voted were representative citizens without any particular personal or party bias.

EDWARDS AND THE JAILS

OCEAN county, New Jersey, has discovered that it does not need the new jail for which arrangements were making before the fatal January 16. The demand for accommodations in the old jail has fallen off to such an extent that it now appears the building is adequate for all present needs.

WHERE IS MORSE?

SIGNOR MARCONI announces that he has received mysterious signals by wireless, which he thinks may have come from the inhabitants of some of the planets. He is not sure about it, but he does not know where else they could have come from.

METERS AND FEET

CERTAIN of the well-intentioned recommendations made by the Pan-American Financial Congress in Washington necessitate legislative action in the various nations. Politics may hinder the

bluffs, threats and checkmating have, however, at last emerged some elements of agreement. The recent bipartisan conference, a break in which has just been narrowly averted, leaves but two subjects upon which marked divergence of the antagonistic senatorial leaders is said to exist.

HEPBURN'S RECORD

Engineer Now Much in Demand Has Some Fine Work to His Credit. Some Old-Time Newspapermen.

By GEORGE NOX McCAIN DONALD M. HEPBURN, acting chief of the Bureau of Street Cleaning, is a construction and electrical engineer. The controversy that arose over his official status was no fault of his. He had been considered by Commissioner Sadler, of the state Bureau of Highways, for the chief of road construction and awaited only his formal notification.

THE TREATY DEADLOCK IS A SENSELESS DISGRACE

When the inevitable break comes the available courses of action will be just what they always were. MR. HEPBURN is a native of Cumberland county. He started out to establish himself in the world when he was eighteen years of age. His father, who was the leading member of the Cumberland county bar, died when he was quite young.

THE CHAFFING DISH

Old Bill Penn With hand outstretched and courtly 'bowed knee' For many moons he's snuggled at City Hall. Where Councils dwell in haste but amity.

ROBERT BURNS

"But see how Burns" A Tennesson may grandly sing And charm the English heart, A Southey's melodeus may ring.
