**South Africa's Industries**

IT IS ESTIMATED that South Africa has more than 5,000 factories representing capital of \$250,000,000. These factories absorb annually raw materials valued at \$70,000,000. Most of the raw materials, and practically all the machinery, is imported—a large part from the United States.

We will be pleased to aid you in making trade connections in the territory and place at your service our more than 400 branches for handling financial matters.

**Selling to Siam**

SIAM, with a foreign trade of about \$80,000,000 a year, is importing cotton goods, foodstuffs, oils, metal, various manufactures and machinery. Its area of 195,000 square miles, its population estimated at about 8,500,000, and its active native industries make it a market which American manufacturers can enter with profit.

Java, Sumatra, Straits Settlements, China, Japan and India also offer promising trade opportunities. The Chartered Bank of India, Australia and China maintains its own branches in the leading cities of all these countries and so provides direct, personal banking service between America and the Orient. Collections are promptly made and trade information supplied to our clients.

**FRANC LOWEST IN HISTORY**  
 French Currency Follows German Mark in Post-Bellum Slump  
 Paris, Jan. 29.—(By A. P.)—Never in the history of France, even after the Franco-Prussian war and in the days of the commune, has the franc reached such a low mark of depreciation. Dollars were quoted yesterday at 13.405 and the pound sterling at 47.205. Financial and commercial circles are greatly depressed over the situation.

"We are sliding down the scale on which the German mark and the Austrian crown occupy the lowest degrees, the Russian ruble being reckoned as zero," says Echo de Paris.
