Excellent Presentation of El- Other Interesting Weddings of the Week-Miss Hornketh gar's Cantata Under the Di-

rection of Mr. Thunder

The Choral Society, under the lead-ership of Henry Gordon Thunder, gave a fine rendition of Elgar's cantata, "King Olaf," at the Academy of Music last evening. The soloists were May Ebrey Hotz, who stepped into the soprano role at the shortest possible notice; Royal P. MacLellern, tenor, and Horace Hood, bass. The orches-tra was made up from members of the Philadelphia Orchestra and Mr. Thun-der wisely selected that number of inder wisely selected that number of in-strumentalists which best balanced the chorus.

"KING OLAF" SUNG

The work of all the soloists was good. The work of all the solenats was good, but that of Mrs. Hetz, considering the circumstances under which she ap-peared, was remarkable. Miss Grace Kerns, of New York, had been originally assigned to the soprano part, but shortly before noon yesterday her man-agers telegraphed that Miss Kerns was agers telegrapheed that Aliss Kerns was ill with influenza and they were unable to find any one who knew the part to take her place. Mrs. Hotz had just returned from Williamsport, where she had been singing, but at noon agreed to take the part, which she had never before seen. Last examines merform before seen. Last evening's perform ance showed few signs of the hurrier study and she sang with all of her usua

study and she sang with all of her usual fine voice and artistry. Mr. MacLel-lern has an excellent tenor voice which he uses well, both in solo and in en-semble work. Mr. Hood was in good voice and did the solo part allotted to him with smoothness and grace. The chorus was also in fine form. Mr. Thunder has succeeded in getting a body of singers rather better than ordinarily balanced in voice parts and thoroughly responsive to his wishes as conductor. They showed little inclina-tion to wander from the pitch and the tonal quality was good through-out. This was especially the case in the beautiful unaccompanied chorus. "As Torrents in Summer." near the close of the cantata, which was not close of the cantata, which was not close of the cantata, which was not only one of the best bits of singing of the evening, but was also one of the real gems of composition of the entire cantata. There is much for the chorus to do in the work and the Choral Society and Mr. Thunder may well be proud of the manner in which they per-formed a commonition by no means
