RACQUETS TITLE TO QUAKER PAIR

J. W. Wear and Jay Gould Triumph Over New Yorkers for **National Doubles Title Today**

WEAR IS STAR OF PLAY

By SPICK HALL

Philadelphia is in the process of making a clean-up of the various titles being played for at games with a rac-quet on indoor courts. This afternoon at the Racquet Club here, J. W. Wear. at the Racquet Club here. J. W. Wear, partnered with Jay Gould, the pair representing Philadelphia, won the national amateur doubles racquets championship.

About a month ago Jay Gould won the open championship at court tennis.

Gould and Wear won today from Stanley Mortimer and C. C. Pell, representing New York. The scores were 15-9, 15-11, 9-15, 15-10, 16-18, 6-15, 15-7.

A large crowd was present to see the finals, and there was tremendous applause at times, particularly on the work of Wear, who the critics found had improved wonderfully over the game

had improved wonderfully over the game he had played carlier.

Wear, partner with George H.

Brooke, had won the title in 1916. But here and there, in his play up to today during the week, the experts discovered patches of rather ragged playing. There-fore the heights to which he rose today were all the more pleasing to the spec

were all the more pleasing to the spectators.

Gould also was in fine form, and it is likely that they will page, up in the future title contests as a feam in defense or heir championshight.

As the matches went to the end of the considerable recess for lunch beild rest.

Yesterday Wear and Gould defeated Cramer Roberts and Charles Bromley, also of the Racquet Club, in four straight games, while Pell and Mortimer climinated Frederick Frelinghuysen and Robert F. Cutting, of New York, only four games being necessary.

With George H. Brooke, Wear won the title in 1916, when the Philadelphians defeated Pell and Mortimer, the New Yorkers having won the championship the year before. This is the first year that Wear and Gould have naired together, and while the New Yorkers had the advantage of having played long as a team, and while Gould, who is the open court tensis champion.

played long as a team, and while Gould, who is the open court tennis champion of this country, was a comparatively newcomer at racquets the Racquet Club pair was expected to give the Gotham experts a very hard match even though they were not the favorites before the

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation - have added dollars to the cost of the necessities of life, while freight charges have added only cents.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 161/2 cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars,

The freight on it has increased only 51/2 cents.

Other transportation charges enter into the cost of the finished article -carrying the wool to the mills and the cloth to the tailors - but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5\% cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

Chief Engineer of the International Motor Company, A. F. Masury, says:

"Sliding the wheels of railroad cars causes flat wheels. If sliding a hardened steel tire over a smooth steel rail for a few seconds can so abrade the wheel that its pounding will crack 150-lb. rails, fancy the damage to a rubber tire in skidding or sliding over a stone or concrete road.

"No matter how carefully and skillfully you drive when roads are wet and slippery, it is next to impossible to avoid skidding unless your tires are equipped with Anti-Skid Chains -such as Weed Chains."

Weed Anti-Skid Chains

For Protection and Preservation

Weed Chains insure safety, economy and tire protection -Always put them on "At the First Drop of Rain."

Weed Chains are also made to meet the demand for an efficient traction and anti-skid device for trucks equipped with single and dual solid tires or with the very large pneumatic tires. They are so constructed that they satisfactorily meet the requirements of heavy truck service in mud, sand or snow.
