DOORLY cooked and unattractive meals cannot afford proper nourishnent to the family during the winter months. You, Mrs. Housewife, hold in months. You, Mrs. Housewife, hold in the hollow of your hand the destiny of the family. Many cross-grained and cantankcrous dispositions have been changed overnight, virtually by neur-ishing and attractively served food. Surely one's family may reasonably expect inexpensive and well-cooked cuts of meat and seasonable vegetables: a spotlessly clean cloth and a good cup of tea, coffee or cocon. Most failures in cooking are due to the fact that the housewife feels it is not necessary to measure her ingredi-

the fact that the housewife feels if is not necessary to measure her ingredi-ents and she prefers to depend upon her own judgment. While at times she has successful results, it is only once in every four or five times. It is sel-dom that she will feel that it is the events and used that measures this result.

She Favors Politeness

Dear Cynthia—In answer to the re-quest of a certain reader, "N. Y. S.," concerning the plausibility of "smack-ing fellows in the face," my candid opinion is that it is wholly unwar-ranted and does not conform to the laws of good conduct. A gentleman wouldn't give cause either by word or action to experience "a smack in the face." But, con the other hand, a gentle and refined woman would not resort to the ex-tremes of resentment in such a manner. Personally, I do not think much of a man who would excite the tender feel-

ings of a woman and so cause her to retaliate in an unladylike fashion. But women out of respect and deference to themselves, in my humble opinion, can easily find a way out of an exasperating situation without bravado. In the long run politeness and discretion conquer all things M. L.
