**JUST THE THING FOR SORE THROAT**  
 Formamint Affords Protection From Distressing Ailments.

In a few days, you know, "just a sore throat" may be something much more serious. Science has proved that the throat is not only the first spot reached by infectious germs, but also forms ideal soil to multiply on. Throat protection, therefore, means germ destruction. Formamint (which is endorsed by over 5,000 American physicians) is the scientific way of disinfecting the mouth and the throat. Handy to have with you—pleasing in taste—it frees an efficient germicide that mixes with the saliva and affords protection against distressing ailments that so often follow infection of the throat linings. 60c, all druggists.

**Gimbels**

A store can become more than a mere seeker for profits—though profits grow under the new system of serving. "Deserve to," says a hard critic at our elbow.

At any rate, the Gimbel Store not only gives good dollar's worth, but it presents its findings from the whole world of good taste.

**Tremendous Preparations for this February**

**Furniture Sale at Gimbels**

Five hundred and two styles of Bedroom, Dining-room and Living-room Suites.

Three thousand Suites in the warehouse as we write — and "more rolling," as the railroad men say of goods actually in transit.

So unusually large is the selling that individual lots sell out each day — many of the lots to be renewed as factories can get shipments through during the sale; while of many items the entire purchase has come and the selling ends the lot.

We are handling a vast business that holds appeal to several thousand families. To be careless of statement is to disappoint and disgust those who need the help of this organization. Hence, carefulness, first of all.

Great as have been the stocks in past years, an actual inventory showed a stock larger than any of the past by \$350,000. It is quite probable that no store in the East is offering such variety—a variety bounded by good styles, good qualities and very important economies of price.
