

Car Shortage:

There's a great shortage of houses, and lumber must be brought from the mills to build them. But there's a still greater shortage of freight cars; and before lumber can be brought to build all the houses, somebody will have to get cars to carry lumber to the shops to build more cars to carry the lumber to build the houses.

If your building can't wait for all this, you will have to get lumber from some concern that already has large stocks on hand, and knows how to get more-that is, some concern that has learned how to make freightcars work overtime.

We have long made a study of this problem, and are learning fast. That's one reason why builders can sometimes get lumber here when it is very hard to get it anywhere.

If you expect to build this year, now is the time to contract for the lumber. Don't wait many minutes. Reach for your telephone and ask some well-informed friend about this matter of freight-car shortage.

Some day you'll build. If you want the work fin-ished on time, see that the lumber comes from LLOYD.

Throng in New York Today for Annual Meeting-Foot-Fault, Scoring and Handicap Rules on Grill—Fight Against Long-Term Tournament Award

> By SPICK HALL, Staff Correspondent of the Evening Public Ledger

New York, Feb. 6.

OFFICIALS, delegates and "bugs" cation of the committee's report and it is very grateful for the advice thus referred today for the annual meeting of the United States National Lawn Tennis Association. Besides the perennial routine of business that must be transacted at each meeting, other matters of moment were scheduled to come up before tennis' governing body at the session due to begin this afternoon at 3 since the conduction of the committee's report and it is very grateful for the advice thus received, which indicates not only a keen interest on the part of thousands of players throughout the country, but also players throughout the country, but also players throughout the country, but also players throughout the country but also players throughout the country but also players throughout the country, but also players throughout the country. But also players throughout the country but also players throughout the country, but also players throughout the country. But also players throughout the country but also players throughout the cou

moment to the Westside Tennis Club or any other organization for a long term.

Another important matter to be discussed was the question of sending ehalenge team to Australia to play for the Davis cup this year.

Just a Skirmish

The Philadelphians desired to prevent such a move as a preliminary wedge to pave the way to have the year's big tennis event staged at the Germantown Cricket Club. It was not their intention to attempt to get the tournament this year, but to get close enough to the front at this meeting to insure success in 1921.

The Philadelphians also were armed to make a struggle to have Joseph M. Jennings, Philadelphian Cricket Club.

Among the Philadelphian was dear the garly and were Paul Gibbons, Joseph M. Jennings, W. B. Raysland William b. H. Cannings, W. B. Raysland W. Milam b. Assistance of the process of many matches, showing the states of the score is a fact. "The system is based on a study of the score is day and the score so financy matches, showing that six points is a fair equivalent of a game and thifty of a set. If A is play for the score is a fair equivalent of a game and thifty of a set. If A is play ing at scratch and B receives a handing and thirty of a set. If A is play for the score is and wins the first point is a fair point with the score is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in. If B wins the first point it is called 1—in.

Among the Philadelphians who came early and were prepared to stay late were Paul Gibbons, Joseph M. Jennings, W. P. Rowland, William H. Connell, A. J. Batty, Arthur P. Hawes, Howard W. Lewis and Paul Nowland.
One of the main reasons why the majority of tennis followers do not want any changes in rules at this time is because of the difficulties that surely would arise in infernational competition. Should the national association decide to unite with the international federation, then it would be the proper time for the changes to be proposed time for the changes to be proposed with the view of having these changes adopted by the federation to standard-ize the rules in all nations likely to com-pete against each other.

Committee Busy The rules committee was making every effort this morning to have its proposals adopted for at least a year's tryout. The committee gave out this

tatement: The only suggestions that have dif-"The only suggestions that have differed from the committee's conclusions related to the foot-fault rule, the scoring system and the method of conducting handicap tournaments, which really is bound up with the scoring. Advice from tennis players and officials of note has already resulted in a revision of the proposed foot-fault rule, to make it so explicit that there will be no chance for a man to run before serving—that possibility having caused the only criticism thus far. The advantages of the new rule in other respects (in simplifying the definition of a foot-fault), have been so obvious that the rule seems have been so obvious that the rule seems to meet with general favor.

"Now, as to the scoring and handicaps: Suggestions have followed publi-
