JAPANESE OUSTED From North Korea

Insurgent Troops in Cam-

By the Associated Press

London, Feb. 9.—Northern Korea s been evacuated by the Japanese, it London, Feb.
has been evacuated by the Japanese, it is claimed in a dispatch from Moscow today, quoting an Omsk message. The population rose to aid Korean forces from Chinese territory, it is declared. The Omsk message, as given by the Rolshevik wireless, says that on February 6 bands of Koreans, raised in Chinese territory, crossed the frontler and attacked the Japanese. Masses of the population are joining the insurgents, it is added, the Japanese retreating and evacuating northern Korea.

Washington, Feb. 9.—(By A. P.)—

Reports received here recently said the entire length of the branch of the Siberia railroad running from Vladivostok westward through northern Manchuria had come under Bolshevik influence and that a movement was on foot to organize the local soviet forces in cembination with the numerous bands of Chinese brigands to invade

Keren.

It was calculated that such an invading force would find large re-enferements from the people of northern Kereau who have been in a state of inspired revolt against the Japanese.

Three full Japanese divisions are in Kerea, but it is said these have been so scattered to maintain order that they probably could offer little immediate essistance to an invasion.

Asks House Democrats to Ignore This Point Until San Francisco Convention

Washington, Feb. 9.—President Wilson opposes the plan to have Democratic members of the House at their caucus tonight make an issue of universal military training.

The President's views are set forth in a letter to Secretary Baker, transmitted today to House Democratic leaders.

The letter follows:

I am told that a caucus of the Democratic members of the House of Representatives has been called to consider pending military legislation and the suggestion has been made that a resolution be adopted commitinfi the Democratic membership of the House against the policy of general military training.

In the present circumstances it would seem to me unfortunate to make a party issue upon this subject, particularly since within a few months the party will assemble in convention and declare the principles upon which it deems it wise to commit itself in a national election.

The present disturbed state of the world does not permit such sureness with regard to America's obligations as to allow us lightly to decide upon The letter follows:

as to allow us lightly to decide upon this great question upon purely mili-tary grounds while the demonstrated advantage to the use of the country which came from military service in the war plainly suggest that in the national interest, quite apart from military considerations, the moder-ate and carefully conducted course

of military training may have the highest possible advantages. In our discussion of the subject you will recall I gave my approval in will recall I gave my approval in principle to the various very moder-

ate training projects suggested by the general staff and I would be very glad to have you convey to appropriate members of the House who will attend the caucus my strong feeling against action by the caucus which will tend to interpose an arbitrary party determination to the considera-

ation which this subject should re-cert from the best thought of the members of the House, considering nike the national emergencies which may confront us and the great dis-ciplinary and other advantages which such a system plainly promises for the young men of the country.
