Early-Morning Snow Turns to **Drizzle When Temperature** Rises to 34 Degrees

FLUSHING MACHINES OUT

A warm rain from the south today took a hand in Philadelphia's snow clearing problem.

The weatherman says barometrical indications point to the continuance of the rain throughout today, and the ninench snow which bound the city since

last week is being partially dispelled by the steady drizzle.

Falling in line with the sudden change in the weather. Chief Hepburn, of the bureau of street cleaning, ordered out the city's entire force of flushing ma-

More than 100 of the machines were put to work, in the rain, dispelling the dirty residue from the snow. Large forces of sweepers followed the high pressure flushers, sweeping the slush and water into inlets and manholes. Fire hose was also pressed into service to make the most of the warm smell.

Clearing North Broad Street

Chief Hepburn announced this morn-ing that 80 per cent of the business secextending from Walnut to Arch. and from the Delaware river to Nine-teenth street, had been cleared. By might 90 per cent of the snow, ice and

At 11 o'clock, the rain had slackened When Mayor Moore was introduced benewhat, but the forecaster said that he defined Americanism as "the desire

the rain throughout the use.

The rain throughout the use.

The rain throughout the use.

With nine inches of snow already on the ground, augmented by the snow which fell early this morning and turned to rain, there were many anxious inquiries at the office of the Weather Bureau to ascertain the danger from flood.

Will Forestall Flood

Wan are growing richer despite this struggle, he said, should take heed of the situation.

Mr. Moore said that in the last two decades the population of the eastern decades the population of the eastern of the country had changed and

According to the weather man, a brisk wind that is sweeping in from the west will forestall flood conditions in central—and western Pennsylvania, where the south wind is not apparent.

At Saranton, Pittsburgh, Erie and Harrisburg this morning the temperature hovered around freezing, but in this city the warm rain and rising temperature was melting the snow rapidly, making several inches of slush at street intersections, blocking sewers and causing great inconvenience to pedestrians.

Out the situation.

Mr. Moore said that in the last two decades the population of the country had changed and half of it is now foreign born.

"I wish to emphasize the danger of neglecting that half of our population that consists of foreigners," the Mayor added. "I have been studying that question, and only this morning, accompanied by the director of public health, I visited a hospital where persons were standing in line waiting to be admitted—a hospital that is about to be closed because no funds are available to keen it open. Do you wonder

The spow fall this morning increased the slippery conditions of the streets happy?' it covered many places where a coating of ice already prevailed and concealed this dangerous footing. Where it melted, it seemed to make the ice more slippery and the cement pavements and streets doubly so.

RADICALS LOSING, ASSERTS PRINCESS

Grant's Granddaughter Says Bolshevists' Grip on Russia Is Failing

Bolshevism is losing ground in Rus sia, according to Princess Cantacuzene, granddaughter of General Grant, who has been in this country several months for the double purpose of educating her children and securing aid for the starving Russians.

"The Bolshevists are still in military control, but they are fast losing ground politically," said the princess today. They are persecuting the intellectual classes and there is growing dissatisfaction among the peasant following.
Only a short time ago, when the
Judenich army reached Petrograd,
there was a counter-revolution among
the Bolshevists and several thousand

the Bolshevists and several thousand were killed.

'I am not discouraged. I feel that Russia has the biggest future of any country, not only because of its resources, but because the Russians are a great people. But chaos was never greater than now. Typhus is spreading because the armies are without food and shelter and behind them are great numbers of refugees from the Bolshevik territories.

"I had word the other day from my "I had word the other day from my busband, who has just come back from Siberia, that he, personally, removed eighteen bodies of typhus victims from the train in which he was traveling. The deaths had all occurred between wo stations

two stations.

"We need supplies. The army is without ammunition and the people are starving and without proper clothing. We have just formed in the United States an American central committee for the relief of Russia, with Mr. Charles Elliot as president and Elliu Root, John R. Mott, Samuel Gompers and Cyrus McCormick as directors. "The Emergency Aid here iv Phila-

delphia is forming a committee and we are co-operating with the Red Cross and the Hoover American Relief Association. We want whatever we can ret. If we were to try to get what Russia needs, we should be over-whelmed, so we are just trying to es-tablish committees wherever we can." The Princess Cantacuzene is chairman of the board of directors of the new organization, which has its headquarters in the Buckingham Hotel. New York. Samuel McRoberts, of the National City Bank, is treasurer, and Montgomery Schuvier is executive secretary. The committee will work through the Russian co-operative societies, which are more numerous and successful than comore numerous and successful than co-operative societies formed anywhere else, the zemstvos, the municipal so-

cieties and the Root mission. Prince Michael Cantacuzene brought Prince Michael Cantacuzene broughthis family in America in the fall of 1917 and returned to Russia to take up the cause of the Mensheviki. During the first years of the war and for several years before he was a member of the staff of the Grand Duke Nicholas Nicholaivitch.

"Injury to the morale of the service by rewarding fallure instead of success in specific instances.

"The policy of rewarding defeat, which the Navy Department only supports," he said, "Is more detrimental to the fighting spirit of the navy than the worst form of bolshevism is to organized government. By injecting this 'defeatist germ' into our navy and attempting to make it a permanent policy

By the Associated Press

Washington, Feb. 10.—Wage negotiations of the railway employes with Director General Hines reached a critical stage today, and, in so far as the Brotherhood of Railway Trainmen is concerned, a strike loomed unless "concerned, a strike loomed unless "ending demands are satisfactorily settled."

W. G. Lee, president of the union, has served notice on Mr. Hines that his men are "very insistent and must have a definite answer soon."

To this Hines replied that no statement of position could be made until he had again talked with the whole body of labor representatives.

White House and railroad administration officials regard "as most serious" the railroad situation precipitated by

articles and referred to before the committee by Secretary Daniels, as to the treatment of American sailors by some Irish people. Mr. Daniels himself had indicated sympathy with this attitude, the admiral testified.

There should be no disparity in the state of a sparity and a state or ashore, because of the state o

There should be no disparity in awards for service affoat or ashore, he declared. At least 90 per cent of the officers who commanded vessels in his force were recommended for awards, he added.

Just after he had made "that awfu. Guildhall speech" in December, 1919, Admiral Sims said, he submitted a report based on information obtained fro port based on information obtained from foreign naval officers saying that war could not be averted more than four years, and that Great Britain and France would be found on the same side and Italy would eventually join them.

Sims Not Pro-British Admiral Sims said be did not see how that report could convey the opin-on that the man who made it was so-hopelessly pro-British that none of his

Sixteen of the 125 motormen and conductors of the Southwestern Railway Co. struck this morning. They refused to go to work, it is said, and stood at the barn of the company at Penrose Ferry bridge.

Schedules on the lines of the company, which extended from Third and Jackson streets to Bow creek, and thence to Hog Island, were being maintained, officials of the company said.

tained, officials of the company said. The striking carmen, who are members of Division 926, of the Amalgamated Association of Street and Electric Railway employes, caused no disorder. Officials say they have pre-sented no grievances to the company.

TO TRADE IN SUGAR FUTURFS

Steps Taken to Resume February 16 After Long Lapse

New York, Feb. 10 .- (By A. P.) Trading in sugar futures, suspended

the resumption had been received today by the sugar equalization board. The board has no control over the new crop of sugar, but it was explained that if "wild and erratic speculation" followed resumption of trading in futures the attorney general has authority to stop it and prosecute under the Lever act, which will be enforced until peace is
