USED AUTOMOBILES

Automobile Painting There are several reasons why the finish on all cars should be baked. Cars so finished wear longer, look better and therefore there is greater economy: Besides, to those who are particular, there is the delight of running a handsome car.

We bake each coat of finish as soon as applied. This enables us to work quickly, reducing the time patrons are required to do without their cars. Besides, the baking process eliminates dust, which is always in the air in the best of varnish rooms.

If you want a strictly first-class Job call, and examine our work; or, if desired, one of us will call on you Remember the rush season is coming. Get your car in early. We will keep our promise as to delivery.
