. SLENDER LINES

Navy blue tricotine is the material used for this frock. The plaitings also are of the tricotine and the also are of the fricotine and the strip of embroidery is of metal with an Egyptian touch. The sleeves are a cross between the very short and the long, and the bell shape is very becoming. The hat has a crown of gold flowers with a brim of straw. A DAILY FASHION TALK BY FLORENCE ROSE

SLENDER or bouffant -- that seems to be the question

Whether we shall still keep the sveite hip line that we have come to associate as would with all that is desirable in fashious and all that is smart—or throw it to the Wien the wind as we beckon buck that rather indefinite hip line that comes when we adopt the new bouffant skirts. That is the problem.

Some women really seem to be at sea about it. They see smart freeks with the new bouffuney, and they read a lot about it. At the same time well-dressed women continue to wear freeks built on slender lines, and somehow they con-tinue to look extremely smart in them.

slender lines, and someone stender those they stand. They don't feel like going shead with plaus for spring clothes until this matter has been settled.

Now let me tell you something. It is a problem that wan't be settled, at least in skin. and willingness to cling to the old when it still access snart.

The really best dressed American woman has not taken too eagerly to the bouffant silhouette. Those who watch Paris fashions with cure see that there is already a slight reaction toward the alender silhouette. That is, the Franch slender silhouette. That is, the French dressmakers have felt after their first launching of the bouffant type of frock that there is a demand for the slender frock, ton, and that there is room for the two types side by side.

Well-dressed American women are taking up the bouffant skirt more for afternoon frecks. Organdic and taffetas are especially aftractive in this design. But for the smart street freck—the inensable navy blue general utility frack, they have kept presty strictly to

Dear Cynthia—The problem presented by your correspondent. "Buck Private," concerning the reason for girls closing their eyes when being kissed might be answered in the following remarks:

Woman has for her protection a gift that makes the male lose out when he endeavors to take some one by surprise; that is, in every woman there is a certain amount of intuition. The intuition warns of the coming kiss and she involuntarily prepares herself for it The nerves automatically become taut and then, when she is kissed, the whose reasons explains relayers causing the
