important facts regarding the

In force before he can content the into united States Government life insurance.

One way to obtain new members in Legion posts would be to clear up all outstanding allotments, compensation and insurance cases of members row enrolled in the post. This would undoubtedly attract the attention of outside service men and ought to bring them into the Legion fold.

A nation-wide campaign will be faunched shortly by the government to assist war risk officers to obtain all data relative to allotments, compensation and insurance matters.

David W. Jameson Post 183 has dereided to issue periodically a bulletin so that the members may keep in touch with one another, even though they do not attend all the meetings. The first of these bulletins will appear next week and will set forth in terse form what has been done and what is planned to be done. The athletic committee of this post is very busily engaged formulating plans to capture the Philadelphia County Legion baseball pennant. The musical committee is now working on a plan for a glee club and a fine "jazz band." The next meeting will be held March 2 at 25 South Van Pelt street, to which new members are invited.

CANADA INSISTS ON VOTE

Essential to Right of Nationhood, Minister of Interior Asserts

Fire important facts regarding the rights of former ex-service men under the war risk insurance act have been transmitted to the seventy-eight posts of the American Legion in Philadelphia, is as follows:

Winnipeg, Feb. 19.—(By A. P.)—Either Canada or the United States would have to step out of the League of Nations under the Lenroot reservation proposed in the United States Senate, and Canada will insist on its right to a place, Arthur Meighen, minister of the interior, asserted in an address before the Winnipeg Board of Trade, Membership in the league without power to vote, he said, would be

Trade. Membership in the league without power to vote, he said, would be a sham.

"The signs are not so reassuring as we would like," Mr. Meighen continued, "Representation obtained by canada is essential if the right of the Canadian people to nationhood is not to be abrogated. Canada can recognize to be a sham.

Every former service man can convert his war risk insurance at any time within five years after the President has declared peage.

A man's war risk insurance must be in force before he can convert the same into United States Government life ingrance.
