

# SENATOR SHERMAN AGAIN RAPS FORD

### Newberry Case Basis for Bitter Debate, in Which Kentucky Election Is Hit.

## RED CROSS IS ATTACKED

Washington, Feb. 20.—Bitter partisan debate on the fraud charges against Senator Newberry, Republican of Michigan, took up much of the Senate's time yesterday, precipitated by Senator L. Y. Sherman, Republican, Illinois, continuing his attacks on Henry Ford, the defeated Democratic candidate.

While the debate was running its course, Senator Watson, Republican of Indiana, called a meeting for Monday of the subcommittee appointed to recount the ballots in the contested election. It was indicated, however, that the subcommittee probably would postpone its task until the trial of Senator Newberry and his campaign workers, now in progress at Grand Rapids, was finished.

Senator Sherman included the members of Mr. Ford's family, the automobile which he manufactures and all his activities in his vigorous attack. He said Mr. Ford had furthered his financial and political fortunes by enlisting the services of the government.

The Illinois senator was taken sharply to task by Senators Stanley, of Kentucky, and Josiah O. Walcott, of Delaware, both Democrats, who asserted he had violated Senate decorum. Mr. Walcott charged that Mr. Sherman had been "addressing a jury in Michigan" for which he would have been in contempt of court if done in that state.

Senator Townsend, Republican colleague of Senator Newberry, injected a new element into the debate by declaring that while the truth was being learned about Michigan, he would like to see the facts brought out concerning the last senatorial contest in Kentucky.

Setting himself up as "one of those persons who knew everything instantaneously from birth," Senator Sherman said, Ford had reared "a financial colossus" and secured congressional aid in acquiring and improving land for private purposes and had enlisted the services of the federal government in providing his political interests in Michigan, while his son, Edsel, was making good his escape from the military draft.

"And I may say," added the senator, "that I regard the Ford automobile as an international pest. It destroys more useful material than any other sinkhole in the world. It is a waste of time and substance."

The Illinois senator also attacked the manner in which the Red Cross is being administered. He declared that 40 per cent of the money it received was paid out for salaries and traveling expenses, and asserted it had on its pay rolls "the paid emissaries of socialist propaganda in this country."

Senator Sherman criticized Raymond Robins and Charles Edward Russell as "uplifters," he said, include George Creel, former chairman of the committee on public information; John B. Densmore, formerly head of the federal employment service; Frederic C. Howe, former immigration commissioner in New York, and Louis Post, assistant secretary of labor.

As long as they can attach themselves to a pay roll, he said, "suffering humanity is sure to be redeemed."

## "HONESTY BEST POLICY"

### Lost Money Returned by Finder After Three Years

Somebody in Philadelphia has sent \$7.35 to Mrs. William H. Satterthwaite, of Doylestown, telling her he had found her pocketbook containing that amount three years ago in a trolley car.

"Being a little pressed for money at the time," he wrote, "I used it with the intention of buying it back some time, so included you will find money order for the same."

"Begging your pardon for delaying the matter so long," he signed, "Honesty is the Best Policy."

## Disputed Adriatic Area

The map shows the Fiume and Istria regions as partitioned according to the treaty of London. President Wilson's proposal of last December and the compromise plan of January 20 adopted by the Allies without consulting the President. The compromise plan links up Italian territory with Fiume by means of the Fiume-Vokosco highway. The shaded areas show where Italian majorities prevail. They also prevail in Trieste and Fiume.

## Wilson Gives Final Adriatic Argument

Continued from Page One  
while now, after victory has been achieved, every European action must be submitted to President Wilson. Is it possible that even American public opinion can countenance such an absurdity?"

"Premier Nitti, the champion of accord with America, must now become the supporter of the Anglo-Franco-Italian accord," says the Corriere d'Italia. "Like Saturn, who swallows his children, President Wilson is now

## swallowing his child, the League of Nations. This, perhaps, is not a misfortune, as it may be reconstructed on a better basis.

The Messenger says: "Mr. Wilson in reality is acting against himself, as his desire to impose without discussion through the threat of hunger his obstinate will shows the impossibility of a League of Nations in which the will of the majority should have power to overcome attempts made by any isolated, overbearing rebel."

Berlin, Feb. 20.—(By A. P.)—Newspapers here are giving unusual prominence to dispatches from the United States bearing on the Wilson-Lansing episode, and also the attitude of President Wilson on the Adriatic question. What little editorial comment there is attempts to establish the fact that there is an "insurrection against Mr. Wilson at home and abroad." This is based wholly upon the cable information through Holland and Switzerland to the effect that American newspapers are taking the part of Secretary Lansing.

## LOWDEN WEARS OLD COAT

### Clings to Shabby Garment to Help Down H. C. L.

Chicago, Feb. 20.—(By A. P.)—Governor Frank O. Lowden, of Illinois, is wearing his old overcoat as part of the campaign against high prices. Mrs. L. K. Bowen, chairman of the women's division of the fair price committee of Illinois, announced this today, telling the following incident:

"Governor and Mrs. Lowden were in the elevator of a Chicago hotel two weeks ago when Mrs. Lowden told him that she knew his overcoat was three years old, that it was becoming shabby and that he ought to buy a new one. The governor said he knew it, but that he intended to continue wearing the old coat as a matter of principle. He said that in every one who could wear old clothes the demand would fall off until prices came down."

### Governor Is Told \$16,000,000 Is Needed to Build Institutions for Them

## 10-YEAR PROGRAM OUTLINED

Trenton, Feb. 20.—The expenditure of \$16,000,000 in carrying out an elaborate program of construction work at state institutions was recommended by the State Board of Institutions and Agencies in a report submitted to Governor Edwards by Dwight W. Morrow, a member of the banking house of J. P. Morgan & Co., and chairman of the board.

The plan recommended is the outcome of an extended survey, including not only conditions as they exist at various state institutions, but in the state at large. The survey led to a conclusion that there are approximately 10,000 persons in New Jersey so afflicted mentally or physically as to make them proper subjects for institutional care. The seriousness of the menace caused by having these afflicted persons at large is emphasized in the reports submitted by Mr. Morrow.

The program of construction proposed covers a period of ten years. To meet immediate needs of the institution which, during the last few years particularly, had not kept pace with the growing demands of the state, the com-

### Debs' Friends Also Present Petition for Primary Ballot

Lansing, Mich., Feb. 20.—Petitions to place the name of William J. Bryan on the ballot as a candidate for the Democratic presidential nomination have been received by the secretary of state.

## MARTIAL LAW IN SAAR AREA

### French Forces Ordered to Shoot Any One Showing at Windows

London, Feb. 20.—Martial law has been proclaimed in the Saar region now occupied by French troops under control of an allied commission, in consequence of new disturbances, according to an Amsterdam dispatch to the Exchange Telegraph.

General Wirbel, commanding the French forces, issued instructions to the inhabitants of the region not to show themselves at the windows of their homes, the dispatch says, declaring the troops had been instructed to shoot at sight all those so doing.

## Entente Cannot Coerce Italy

When he calls upon them to coerce Italy they will tell him once more that unhappily they are bound by treaty to Italy, and much as they would like to help them, he will have to coerce Italy all alone. This has been their position

from the outset and it is legally unassailable.

Besides being addressed to the liberals of Europe, Mr. Wilson's note is addressed to the people of this country. He takes the occasion to show in how the Adriatic development justifies his insistence upon Article X of the covenant unabated by any reservation. It is the only thing which will stop grabbing and imperialistic ambitions.

## Uptown-Downtown

### In large cities men go downtown to work—they are away all day.

### Their little world is downtown until night—then it's uptown to home.

### And in their homes it's usually uptown all day. Children and tradesmen, sewing, cooking, cleaning, visiting and perhaps a trip downtown to buy.

### The average home is quite busy all day. The "lady of the house" has a real job, a varied and sometimes a complex job.

### If you doubt it, stay home three days and watch.

### For the home, the modern departmental woman's magazine is a multiplex technical journal.

### The gilded rolling pin and be-ribboned piano leg just went out of fashion with the red heavies, the dickey and the congress gaiter.

### The men downtown earn the money; the women uptown save and spend the family income with the not infrequent suggestion or counsel of the great women's magazines.
