MARTENS FAVORS SOVIET RULE HERE

Tells Senate Committee He Wishes "Dictatorship of Proletariat" for U. S.

DENIES SEEKING REVOLT

By the Associated Press

Washington, Feb. 25.-Ludwig C. A K. Martens, Russian soviet agent in the United States, to d the Senate investi-gating committee today that he would like to see the "dictatorship of the pro-

letariat" set up here. "That is what I wish." he said. "not what I am working for." He was given permission to qualify his statement made at a previous ser-nion that he was a revolutionist in the

United States. "I meant." he said, "that I have always worked for the revolution in

Russia, not revolution elsewhere. Colonel Beck "Changed Views"

Wade Ellis, examiner for the com-mittee, asked if a Lieutenant Colonel Beck was on the soviet bureau staff in New York, listed as "military attache. Martens identified him and Ellis intro duced a report signed by Beck made by British military authorities outlining a plan of military operations against the Bolsheviki power in Russia.

"He has changed his views," Martens

Germany's post-revolutionary era. According to the testimony of State's Attorney Messerschmidt, in the libel suit Erzberger smuggled large amounts of his private funds to Switzerland, Previously testimony adduced from Doctor Heifferich involved Erzberger in questionable transactions in connection with import and export permits, and otherwise misusing his official position in furtherance of ventures in which Erzberger was alleged to be interested. Unexpected evidence was produced in Decomposition in an opinion to Ben G. Eynon, registrar of the automobile division of the bighway department, rules "testi-mony of two witnesses is not required in proceedings against violators of the mo-tor vehicle speed laws except in cases where vehicles are timed on a measured stretch of highway." He says: "There would seem to be no reason why state or local officers

An Unusual Opportunity As Philadelphia Manager

A labor-saving device that has been in successful operation in every country in the world for over 15 years is now for the first time to be manufactured in this country (plant at Lehighton, Penna.) through license rights granted by the U. S. Government. The machine is superior by every test to any on the market; as evidence of this. a large number of state and county organizations, practically all departments of the U.S. lovernment, and a very large number of the big mercantile concerns of the country have been using it for many years, among the number being;

American Radiator Co., Buffalo, N. Y American Sugar Refining Co., New York. American Woolen Co., New York, Atlantic Refining Co., Franklin, Pa. Burton Brothers, New York, Chleago, Burlington and Quincy Railroad, Chicago, 111. Firestone Tire Co., Akron, O. International Silver Co., Meriden, Conn. Matheson Lead Co., Brooklyn, N. Y. Nutional Carbon Co., Cleveland, O. Republic Iron and Steel Co., Birmingham, Ala. The Texas Co., Houston, Tex. P. W. Woolworth Co., New York, Branches.

The organization controlling this license requires manager for its Philadelphia agency. Agreement will be entered into for one or several years, depending upon the man. This agency will include all industrial points adjacent to Philadelphia.

The position offers an unusual opportunity for the development of one's own business with an absolutely proven product in a field that is in its infancy, backed an organization of the strongest executive and financial calibre. The responsibility for results will rest absolutely with this man, and the profits will be large enough to make the arrangement peculiarly interesting.

An experience in the adding or calculating machine field will be helpful, but it is not essential. Above all, the man must be able to present credentials of the highest character, as well as financially able to file's cash bond upon signing of agreement. Telephone MR. GOOCH, Bellevue-Stratford Hotel, for appointment, either Wednerday or Thursday of this week

CAR AND DRIVER ARE ONE

Great is the responsiveness of the Dual Valve Six Pierce-Arrow. So much less effort is needed to tell it what to do-so much less time elapses before it does itit seems as if car and driver were one. The car responds more quickly; it steers with a lighter touch; its gears are shifted with less effort. All the contacts between driver and car are made closer, easier and quicker.

Here is a car to be driven without effort. No brute force is required to start, guide or stop it-boundless power is in leash, waiting the word-nod-touch-to be off, but checked -changed-stopped with equal ease. These are some of the results Pierce-Arrow engineers have attained in the Dual Valve Six Pierce-Arrow.

They Save Teeth Now In a New Way-By Ending Film

All Statements Approved by High Dental Authorities

Millions of teeth are now cleaned in a new way. You see them everywherewhite, glistening teeth. Perhaps they are teeth you envy. Then make this simple ten-day test and find out how to get them.

The great tooth wrecker is a viscous film. You can feel it with your tongue. It is ever-present, ever-forming. It clings to teeth, enters crevices and stays.

The tooth paste does not end it. The ordinary tooth paste does not dissolve it. So it stays-much of it-and may do a ceaseless damage. Most tooth troubles are now traced to film.

Why Teeth Discolor

That film is what discolors - not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles are constantly increasing, despite the wide use of the tooth brush. And the reason lies in that clinging film, and brushing leaves much of it intact.

Dentists long have known this. They urge periodic dental cleaning to remove film and tartar. And dental science has for years sought a way to constantly combat film.

That way has now been found. Able authorities have proved its efficiency by

The scientific film combatant, now used on millions of white teeth. Druggists everywhere are supplied

with large tubes.

A Way to Fight Film

is being sent to anyone who asks.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

But pepsin must be activated, and the usual method is an acid harmful to the teeth. So pepsin long seemed impossible. But science has discovered a harmless activating method. Convincing tests have proved this. Now pepsin in this form can be every day applied. And in a tooth paste which conforms to every modern dental requirement.

Now you are urged to try it. Let it argue for itself. Compare the results with your present methods. Let your mirror tell the story.

There are few things more important. Bad teeth cause endless troubles. And teeth cannot be kept white, safe and sound if you leave that film.

For your sake and your family's sake, find out the way to combat it.

Watch It

the old ways and the

Let Pepsodent remove the film, then look at your teeth and feel them. Then decide by the clear results between

new.

You can see very quickly what Pepsodent does, and our book will tell you why.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.
