Engineer Already Had Lost One in Previous Railway Accident  
 Marcus Steele, a Reading Railroad engineer with an artificial leg, lost his good limb last night when he was run down by a locomotive at Lehigh and Kensington avenues. Steele was standing on the track when his left foot got fast in a guard rail. A few minutes later an engine bore down and his leg and foot were so badly crushed that amputation was necessary in the Episcopal Hospital.  
 Steele lost his right leg in a railway accident some years ago. He is fifty years old and lives at 2058 East Stella avenue.
