Chamber Music Association a successful season with its concert, at the Bellevue-Stratclosed eighth closed a successful the Bellevue-Strat-eighth concert, at the Bellevue-Strat-ford yesterday afternoon, the Flonzaley Quartet being the performers. Two complete guartets and a movement of a third was given, the two guartets being the D major of Haydn, opus 76, No. 5, and the too-often-played Dvorak quartet in F major. The slow move-ment of the quartet, opus 59, by Eman-uel Moor, completed the program. The Flonzaleys played with the fin-ish that has put them in the premier position among American quartets and with all the painstaking care that alone makes possible such an ensemble as they have achieved. What Are You Going to Make of Your Boys and Girls?

Many American boys and girls, after graduating from grammar school and even high school, become electricians, plumbers and clerks, where the earning power is limited, or enter some trade taking them to unhealthful cellars, to the tops of roofs or other dangerous places.

But here is a fascinating, highly paid trade which parents, boys and girls know little about—the fur industry—following which they, safely under a roof, will handle beautiful merchandise at a salary.

Owing to the scarcity of skilled fur workers, a number of leading furriers in Philadelphia, namely:

Edwin R. Dodge, 11th and Sansom Sts.; Julius Levy, 1423 Walnut St.; Fur & Millinery Shop John Davis Co., 1120 Chestnut St. Jacques Ferber, 1316 Walnut St.; Jos. Habisreitinger, 1911 Chestnut St.;

J. Schwartz, 127 S. 13th St. Theo. F. Siefert, 1426 Walnut St .: M. Wenger, 1229 Walnut St .:

and others, have decided to open a fur school for the intelligent boys and girls of Philadelphia at a minimum tuition fee that will merely serve to cover the cost of teaching and the expense of the costly machines necessary for the lessons.

Fur operators and cutters make from \$30 to \$75 a week and upward in the season. A four months' course is necessary to start the student. as an operator. For the skilled operator the way is open to become a cutter, and having reached this stage the opportunities for further advancement are unlimited.

The students' tutelage will be in the hands of experts, who will decide when they are ready to assume practical duties in some fur establishment, when they will be paid a salary. \$50 will be required for instruction and the use of the machine.

Only those boys and girls will be accepted who have first -class references, unquestionable habits and those who are of undoubted Americanism.

Students must positively have the unreserved consent of their parents. The Board of Governors reserves the right to reject any applicants the teachers deem it unwise to accept. No personal interviews can at first be granted, but all details as to age, education, family consent, etc., must be in writing. Application will be mailed upon request of any of the above.

This highly desirable proposition will stand the closest scrutiny and investigation. The opportunity is given for a limited time only.
