

ALLIES MAY GIVE AID TO GERMANY

Premiers Now Incline Toward Loan to Prevent Ruin of Nation

LLOYD GEORGE LEADS WAY

By the Associated Press. London, March 3.—A noteworthy phase of the present meeting of the Peace Conference is the changed attitude toward Germany. In high diplomatic circles it is asserted that Germany has come to recognize that Germany ruined would mean a weak spot, and a dangerous spot, in Europe.

Great Britain, and personally Lloyd George, the British premier, are credited with being the chief forces in bringing about this policy. The French peace delegation is described as moving toward this point of view reluctantly, although it is moving. It is asserted that the French are less immovable than when M. Clemenceau was at the helm of state.

It is expected that a plan will be arranged which will offer inducements to the rich smaller neutral countries to subscribe to a loan. From England, her representatives believe will contribute, officially or unofficially, although England's financial commitments of various sorts arising from the war are greater than those of any other nation. One of the American conferees expressed the opinion yesterday that perhaps German sympathizers in America, at least, will come forward with subscriptions.

The question of finally fixing Germany's war indemnities at a specific sum also is being discussed. The belief is expressed that the German Government can organize its finances and industries more efficiently if the German people know exactly what are their obligations and what they are to be called upon to pay. This question was one left by the treaty to the reparations commission, but the present idea seems to be that the conference likely will take it out of the hands of the commission.

Plan Food Distribution. The purchase and allotment of raw materials and of food, which the conference is considering, and on which the necessity for a joint arrangement is recognized, is likely to involve consideration for former enemy countries. They probably will be given a fair share in the distribution in accordance with the new policy of putting them on their feet.

A wireless dispatch received here from Berlin announces that the Norwegian premier has stated that Norway is prepared to supply Germany with fish and fats on credit, since Norway is convinced that the German people will comply with their obligations.

MOULIN REDET TO GO

World Famous Paris Windmill, Artists' Delight, to Be Razed. Paris, March 3.—(By A. P.)—World famous Moulin Redet, one of the two remaining windmills which for centuries crowned the Mont Martre, is to be removed to make room for the construction of new houses. As this will inevitably ruin the picturesque spot from the artist's point of view, the painters are in despair, and lovers of old Paris are endeavoring to get the authorities to consent to the mill being moved to another site instead of being pulled down.

In the seventeenth century the hill-side and top of Mont Martre were covered with windmills. The number finally dwindled to two, the Moulin de la Gabelle and the Moulin Redet. For many generations artists of all countries have sought out the Mont Martre for the purpose of reproducing these mills on canvas. The section was a favorite one with American tourists and artists.

Sembra che in essa si esprima compiacenza per il partito preso di continuare in conferenza miranti ad una amichevole soluzione del problema, che soddisfa alle parti interessate.

Inoltre, è stato non ufficialmente annunciato, al Dipartimento di Stato, che la risposta dei Primi Ministri alleati alla nota del Presidente, in data 24 febbraio, per la quale "in corso la replica, sarà" resa pubblica domani.

KAISER BITTERLY DENOUNCED IN DIET

Fight to Deprive William of Fortune Provokes Acrimonious Debate

By the Associated Press. Berlin, March 3.—The fight to deprive former Emperor William of his properties and fortune began in earnest yesterday when the motion of the Majority Socialists of the Diet to refer the proposed settlement by which the former ruler is to be deprived of his possessions, was put to a vote. The Majority Socialists vied with the independents in denunciation of the former ruler in an effort to defeat the proposed settlement by accomplishing the confiscation of the Hohenzollern possessions. This would be done through constitutional amendment, voting the

former emperor a fixed sum for his maintenance. Deputy Graf, a Majority Socialist, declared that the ex-ruler had failed to live up to the historic precedents of his race. He had not died at the head of his troops. He chose instead, the deputy continued, a midnight flight to Holland, where "he now is promulgating and sowing seeds."

He expressed doubt as to whether the former emperor had subscribed to war loans, as had been claimed, while his claim that he had been the guardian of peace had been disproved by his continuous rattling of the sword and proclamations of the mailed fist. The Democrats and the Clericals joined in voting for the government's measure providing that the settlement be referred to the committee of judiciary.

The judiciary committee now takes the bill under advisement and conferences are expected to last many weeks. The motion of the Majority Socialists providing for action by the national assembly has been temporarily tabled.

CALLS FOR WAR CRIMINALS. Berlin, March 3.—(By A. P.)—All Germans who believe their names to be on the list of men whose extradition is demanded by the Allies are called upon to make known their places of residence or whereabouts by the attorney general, who issued a proclamation to this effect.

London, March 3.—(By A. The Original Mill White washes like tile

WHEN soot and grime begin to settle in a factory, even the best and whitest paint begins to lose its lustre. Covered with flat finish paints, ceilings and walls collect dirt instead of repelling it. When soiled, they cannot be washed clean. In a short time, therefore, their reflecting power is greatly diminished. Yet the same ceilings and walls covered with Barreled Sunlight will increase daylight in the building 19% to 36%. Actual tests assure this.

FOR THE HOME. There are rooms where white ceilings, walls and woodwork are particularly fitting, such as the kitchen, nursery and bath room. Barreled Sunlight makes rooms bright, cheerful and sanitary. It is cheaper than enamel and easier to apply. Sold in gallons, half gallons, quarts, pints and half-pints.
