

McADOO WOULD CUT BILLION OFF TAXES

Urges Two-Year Delay in Payment of War Debts, to Benefit Business

SAYS BURDEN IS TOO HEAVY

Washington, March 5.—An immediate \$1,000,000,000 reduction in federal taxes was suggested in a statement issued yesterday by William G. McAdoo, one-time secretary of the treasury. The present tax burden is too great, he said, and is "having an injurious effect on business."

Mr. McAdoo proposed that collection of a tax to establish a sinking fund for retirement of the war debt, which was recommended by Carter Glass, recently secretary, to begin with the fiscal year 1921, be postponed for two years, and that the deferred payments of European interest be funded until Europe is in position to pay its interest charges.

"The financial policies of the nation as embodied in future congressional legislation," said Mr. McAdoo, "should realize the utmost economy in expenditure and might well fund in long-term bonds \$1,000,000,000 a year for two years of the amount now raised by taxation."

"Under the laws, a tax to establish a 1 per cent sinking fund to retire bonds now outstanding is to be collected, beginning with the fiscal year, 1921. That amount might be used to fund in long-term bonds \$1,000,000,000 a year for two years and thus reduce the tax burden by \$250,000,000 annually. There, too, is the debt Europe owes us, which now amounts to about \$10,000,000,000. If the economic restoration of Europe had

proceeded far enough so that Europe could pay now interest on this debt (as she will be able within a few years), we should have an income of \$500,000,000 from this source. But that is not now available. Why not fund that amount against the day when it will come back to us?"

"By postponing two years the establishment of a sinking fund and funding the deferred payments of European interest we should cover \$750,000,000 of the \$1,000,000,000 by which our taxation might be reduced. By discontinuing purchases of Liberty Bonds for retirement under provisions of existing law the Treasury would be relieved of a large burden now reflected in the floating debt, a burden that otherwise will have to be made up by taxation."

Boy Pupil Shoots Teacher

Cincinnati, March 5.—Angered because his teacher, Beatrice C. Conner, had sent him to the principal of the Douglas School for punishment, Lawrence Angel, fourteen years old, yesterday arose in his seat in his schoolroom and shot the teacher through the arm. Pupil died in a panic when the shot was fired. The teacher staggered to the door and fell. Angel still had the revolver, but made no further effort to use it. He was standing beside his seat, weapon in hand, when the police arrived.

EDWARDS 'SORRY' LIQUOR IS ISSUE

Blames Volstead Act—"Biggest Fool Bill Ever Passed by Congress"

IS HAILED FOR PRESIDENT

By the Associated Press
New York, March 5.—Governor Ed-

ward I. Edwards, of New Jersey, who has declared war on the federal prohibition amendment, was acclaimed last night as "the next President of the United States" by members of the Tammany Oyster Club, whom he addressed on the "liquor question."

In his speech to the Tammanyites, Governor Edwards said: "It is a pity that the liquor issue is to remain in politics." That result, he added, had been actually determined by the eighteenth amendment and the Volstead act, "the biggest fool bill ever passed by Congress."

"The issue will be presented every two years," he continued, "and every candidate for Congress will be compelled to make known his interpretation of the law. Some persons would have us believe that the so-called dignity of the great political parties make it inadvisable for either of said parties to include in its platform any refer-

ence whatsoever to what is commonly known as the liquor question.

"Notwithstanding the opinion of Mr. Bryan and the Anti-Saloon League, it is my conviction that the Democratic party will listen to some people and will include in its platform a provision covering the right of personal liberty and self-determination and assume full and proper protection against further tampering with the constitution."

Services for Senator Bankhead
Jasper, Ala., March 5.—Attended by delegations representing the Senate and House, state officials and hundreds of persons from all parts of Alabama, funeral services were held here yesterday for Senator John H. Bankhead, who died Monday in Washington. Interment was postponed until tomorrow because of a heavy rainstorm.

DEFEND CANADA'S VOTE IN LEAGUE

Member of Parliament Puts Country on a Par With the United States

RAP STATUS OF EXCHANGE

Ottawa, March 5.—Canada has as much a right to a vote in the League of

Nations as the United States, W. A. Buchanan, independent member, declared yesterday in the House of Commons.

"I have no reflection to cast on the country to the south," he said, "but I will say that Canada was in the war from the beginning and sacrificed thousands of men for the principles for which she was fighting. She has just as much right as the United States to a voice in the league."

Both sides of the House applauded. Mr. Buchanan urged revision of the tariff, which would reduce the duty on farm implements.

A similar note was struck by T. W. Caldwell, member for Carleton, who said that one make of American automobile costs \$240 more on the Canadian side.

C. H. Gould, farmer member from Manitoba, referred to a recent remark in the House that Canada should not trade with the United States unless that

which is your HOT WATER faucet?

When you turn the hot water faucet what happens? Does the water gush forth "piping hot," in a steady stream? Or do you hold your hand under a lukewarm trickle—that may grow hotter or colder?

THE Lovekin AUTOMATIC GAS WATER HEATER

Means lots of hot water with little gas—hot water for every household need, piping hot at the turn of the tap. Find out all about its exclusive, patented features; its surprisingly small gas consumption; its dependable, efficient year-after-year service. The "Lovekin" is self-operating—you don't have to "light up" each time you want hot water.

"I've just spent \$11,000 altering my house," says a Lovekin user. "Many of the new conveniences are expensive—such as a \$2000 furnace—but I would rather give them all up than do without my 'Lovekin.'"

The "Lovekin" is approved by the U. G. I. Send for booklet.
