NEWS OF FINANCIAL WORLD—NEW YORK AND PHILADELPHIA STOCK QUOTATIONS

MARKET GREATLY CONFUSED BY CONFLICTING REPORTS

Prices Broke Violently on Erroneous Version of Supreme Court Decision, but Recovered on Genuine News

New York, March 8.—Up to noon today's stock market was very tame and altogether a colorless affair. Conflicting reports concerning the Supreme Court decision in the stock dividend case produced no end of confusion with wild and violent fluctuations extending over a range from 2 to 10 points.

The market had been drifting along lazily after considerable irregularity during the morning, when one of the Financial News Bureaus published a flash report stating that the Supreme Court ruled that stock dividends are income, therefore taxable. This unpleasant bit of news practically swept Wall street off its feet and was followed by a flood of selling orders which swamped the market and caused prices to break violently in all directions, the breaks being particularly severe in those particular stocks, notably Crucible Steel, in which action on proposed stock dividend distributions had been delayed until the Supreme Court had given its verdict.

When the market appeared to be on the verge of running into complete demoralization, an entirely different interpretation of the decision was given by the Associated Press, which stated that the court had decided that stock dividends were not incomes and taxing of the same was unconstitutional.

This had an electrifying effect and brought the entire list back with a sharp rebound. The market wavered at first but when the later advices from Washington substantiated the correctness of the Associated Press report prices in all directions were elevated as rapidly as they had been forced down only a few minutes before. There was little short of a stampede on the part of the short interests when the market reversed itself, and between noon and 1 o'clock prices were bid up vigorously all along the line.

The week began with further reactions from recent high levels, General Motors at an advance of 6 points, proving the noteworthy exception. Among industrials, oils and rails, declines extended from large fractions to 2½ points. Crucible and Republic Steels, Mexican Petroleum, Royal Dutch, Canadian Pacific and Rock Island reflected the most pressure.

The large decrease in actual reserves reported by the Clearing House last Saturday and another setback in foreign exchange probably contributed to the early reversal.

General Motors continued to overshadow all other stocks during the dull forenoon, increasing its gain to 15 points at 274. Associated shares were irregular, although the rubber group strengthened with equipments and minor steels.

Pressure upon high-priced oils relaxed for a time, but was renewed later to Mexican and Pan-American Petroleums. Leathers and textiles displayed much of their recent heaviness and rails were slightly lower. Initial offerings of call money at 8 per cent and another moderate gold import from Canada infused more strength toward midday.

NEW YORK COFFEE MARKET

New York, March 8.—An advance of a cent a pound in the coffee market attracted scattered profit-taking and this, coupled with a drop in Wall street, brought out some fresh selling after the call, the decline sending May to 14.92, July to 15.16 and September to 14.93, or 24 to 27 points net lower.

The cables were a disappointment to the bulls, although they showed a fairly steady market in Brasil.
