Morning Post Declares "Slight to France" in Hitchcock Letter Is Disturbing

GLOBE CALLS IT UNWORTHY

By the Associated Press London, March 12.—President Wilson's charge of "imperialism" against France, contained in his letter to Senator Hitchcock, has moved the Morning Post to take up the cudgels in favor of France. The Tory newspaper cites Mr. Wilson's present criticisms and his appeal to Italians over the head of Premier Orlando last summer as showing that "under the impulse of his lofty ideals the American President is almost as impatient of the constitutional governments of modern European democracies as he is impatient of his own Senate."

accuse her of being saddled with the same kind of chauvinistic government to overthrow which she sacrificed a million of her sons. Contending there are many indications of the spirit of aggression and revenge rising in Germany and dominating the League of Nations as being "almost as effective a barrier against German aggression as the International Postal Union," the newspaper says: "The American nation, a chivalrous comrade in arms, an old friend, will realize that France, which, in Mr. Wilson's admirable letter, formed the dividing line between democracy and tyranny, cannot afford to take risks." The Globe, in an editorial, says: "President Wilson's letter to Senator Hitchcock raises the query as to whether it is indicative of his being so far restored to health that he must needs speak plainly and vigorously, or whether it shows his condition to be such that he cannot restrain himself from manifesting his private petulance by public indiscretions. . . . Be that as it may, the President's true friends will deplore an unworthy and almost unmanly outburst which will lay him open to pointed retorts on the part of our French allies." Reviewing the position of President Wilson in peace-making, the Globe declares that he "is temperamentally unfitted to deal successfully with a position demanding a certain measure of give and take. . . . The world has suffered and is suffering. . . . We won't enter into any detailed discussion of the President's conduct in writing publicly that 'the French militarist party is now in control,' for we know that our friends across the channel will deal faithfully with that egregious statement. . . . But we cannot help wondering what would be said in the United States should Deschanel write to

Millerand asserting, that the money-making element is in control of the United States. We fancy that the shrill American outcry would be distinctly heard across the Atlantic. "It is no exaggeration to say that the illness of President Wilson has provoked the sincere sympathy of the whole civilized world. But his recent ebullitions elicit a certain degree of sympathy for the United States. . . . Earl Curzon spoke in answer to Viscount Bryce, who declared that the Turk had been directly or indirectly responsible for all the European wars in the past century, and maintained that he should be driven out of Europe and even beheaded. . . . Earl Curzon said the Peace Conference believed the only way to expect a quiet Near East was to arrange things that the new states could be on terms of friendship in some measure with their neighbors. To take Constantinople from the Turk and otherwise lay down too hard a peace, he declared, would only aggravate his hatred and result in unending turmoil. . . . The foreign secretary added that the Peace Conference hoped that when the

new states were set up in Asia Minor, however, the United States "would help materially, in assisting the new Armenia. . . . The House that Heppie built Inaugurated One-Price System in 1881 Downtown—1117-1119 Chestnut Street Uptown—6th and Thompson Streets It is seldom that you find an upright piano with a full large tone of the same quality as that of a grand piano. In the Heppie Upright Piano, however, the tone is much greater than in the ordinary upright style. This is due to the Heppie patented three sounding-board construction. Heppie Pianos are priced from \$475 up. They may be purchased on the Rental-Payment Plan if desired, all rent being applied toward the purchase price. In player-pianos there is no greater dollar-for-dollar value anywhere than the Heppie Pianola-Piano. The famous Pianola player-piano action is only used in six pianos, all of which are recognized leaders in their respective groups. They are the Steinway, Weber, Steck, Wheelock, Stroud and Heppie. The price of the genuine Heppie Pianola-Piano is \$775. Rental-Payment can be arranged if you desire. Call, phone or write for catalogs and full particulars. C. J. DUPONT WAR SURPLUS EQUIPMENT How a turbo-generator paid for itself Manufacturer buys \$13,000 power-machine from Du Pont surplus for \$7500 and saves \$7488 on current besides. A Boston manufacturer who bought a turbo-generator from among our surplus equipment for almost half price, also saved two months power expense by getting immediate delivery. Before calling upon us, this manufacturer had tried to buy a new generator. He was willing to pay the \$13,000 asked for it, but could not wait two months for delivery. Then he came to our plant at Carney's Point and found just the generator he needed for only \$7500. The money he saved on two months power cost, which was \$7488, almost paid for the generator. While at Carney's Point, this manufacturer also bought other machinery he needed at decided bargain prices. He told us later that he had saved his firm \$21,000 on the equipment he purchased. You, too, can take advantage of this unparalleled sale, and buy the equipment and material you need for your business, at a great saving. Wanamaker's We Have Been Told That There Is as Much of a Tree below ground as there is above it, and so it is if one is to build height: it is not possible with shallow foundations. In constructing this building we had to dig far down and make wide provision for broad and heavy granite walls, two stories below ground and twelve more skyward. There are secret facts in the history of buildings as well as in the nations' treaties and people's lives. Unless trenched deep and balanced well, neither buildings nor citizens can safely rise to lofty heights. There is daily work going on here upon the foundations of this business in the interest of its owners, of the city in which it is planted, and of the general public.
