In quanto alla questione Adriatica è accertato che tutti i partiti sono d'accordo che all'Italia più di ogni altra cosa è necessaria una maggiore sicurezza delle sue frontiere, per essere così

Oggi il Consiglio dei Ministri si è nuovamente adunato e la seduta è durata varie ore. L'on. Nitti sembra che voglia raggiungere un completo accordo sopra tutte le questioni, sia internazionali che interne.

Una delle più importanti discussioni che sarebbero avvenute nel detto Consiglio dei Ministri sarebbe stata quella degli approvvigionamenti e pare che il

prezzo del pane sia stato fissato in modo da compensare quello del grano.

I giornali ancora commentano il rimpianto ministeriale e constatazione che il gabinetto si è rafforzato con l'entrata dell'on. Lanzetta ed al riguardo si rammenta la di lui abilità nel concludere buona parte dei trattati commerciali dell'Italia con le altre nazioni.

Si dice che l'on. Lanzetta stia già lavorando alacremente alla preparazione di un progetto inteso a regolare per mezzo di accordi internazionali, l'attuale situazione monetaria mondiale.

Oltre al Consiglio dei Ministri ha avuto luogo una riunione del Comitato di

Miss Gladys Deacon, of Boston, Mass., sister of Princess Radziwili, was awarded a verdict of £500 and costs against the Daily Graphic in court here yesterday as damages for the publication of a libelous article January 1. The article had asserted Miss Deacon was "banished from Germany, where her name was frequently coupled with that of the crown prince."

Owners of the Daily Graphic have apologized and made a formal statement that there was absolutely no foundation for the article. Miss Deacon's counsel declares the only time she ever met the former German crown prince was while she was staying at Bloemfontein with the Duchess of Marlborough.

WAR SURPLUS EQUIPMENT

Great industries buy used equipment

World's leading industrial concerns take advantage of money-saving opportunities.

Thousands of manufacturers have bought our surplus equipment and material. Among them are the world's leaders in their respective lines.

These firms never bought used equipment or material, prior to 1919. They were prejudiced against it.

Our sale of surplus equipment changed their idea in this respect. It was a revelation in economy. They found, among our stocks, as you can find, equipment guaranteed to be serviceable and in better working condition than some new equipment.

That's why they bought millions of dollars' worth. Look down this list and see the kind of firms that buy Du Pont surplus equipment

A New England contractor needed a certain kind of equipment, without which he could not complete a contract. He wired to us and we had just what he wanted. He bought the material, got immediate delivery and saved \$35,000 on the purchase. And what was more important to him, he made good on his contract.

If you need any kind of equipment, no matter for what industry, ask us about it. Don't miss this opportunity to get dependable surplus material at below market prices.
