RAPS CONCEPTION OF THE CHURCH

Dr. Charles Fiske, of New York, Declares Religion Is Regarded as Kind of Insurance

MATERIALISM IS BLAMED

"Many people's conception of the church is a kind of insurance against fire," according to the Rev. Charles Fiske, D. D., bishop of central New York, who spoke at the Garrick Theatre noon service today.

MATERIALISM IS BLAMED

"There are many forces struggling for supremacy today," said Doctor Fiske. "The forces are industrial, economic and social and I believe that the principle of democracy is needed to combat these forces."

MATERIALISM IS BLAMED

"There are two great tasks before the church and the people today: First, the significance of Christ and the principles of spiritual relationships, and second, the spiritual conception of life."

MATERIALISM IS BLAMED

"The greatest service to the church is self-control as suggested by the Christian faith, and the greatest solution that we have to the problems of the world is the application of Christian principles and a return to the church."

MATERIALISM IS BLAMED

"At St. Stephen's Church, the Rev. Dr. Charles Wood, of the Church of the Covenant, Washington, D. C., spoke from the text, 'Christ's Cross and Ours.'"

MATERIALISM IS BLAMED

"I have talked of the cross as essential, as the dream of theologians, living away from the world. The cross of Jesus Christ is not an men have thought, a blot or blur on the sky, but a point of subliming light that reveals to us the face of God and pierces deepest into the soul of man."

ACCUSES GRAND JURYMEN

Indicted Atlantic City Negro Makes Conspiracy Charge

Atlantic City, March 19.—Isaac H. Nutter, negro lawyer and politician, moving today before Judge Ingersoll for the dismissal of an indictment returned against him Wednesday in Atlantic City's slush fund, gambling investigation, made charges against Leonard D. Algar, foreman, and A. M. Fort, member of the grand jury, and Richard Black, a defendant in the case.

ACCUSES GRAND JURYMEN

Nutter alleged Foreman Black "conspired to defeat the prohibition laws. The resolution, reported favorably by the committee, was as follows: 'Resolved, That we hereby endorse the resolution passed by the Laymen's Association, condemning an un-American and not representing the faith and aims of our people, the efforts of governors, congressmen and senators to hinder, impede or nullify the enforcement of the prohibition laws, and further demand a full and complete investigation into the slush fund, and the submission of a report to the public.'"

ACCUSES GRAND JURYMEN

Nutter said the brooch was given to Arthur Ellis, an alleged gaming house proprietor, who he alleged, promised \$200 for protection to Detective Black, who he alleged, was a member of the grand jury, and Richard Black, a defendant in the case.

NEW FOREIGN POLICY URGED BY EDMONDS

Attorney Makes Plea for Action Abroad at Business Session Lunch—Tells Own Survey

"Wanted—An American Foreign Policy," was the subject of an address by Franklin Spencer Edmonds, an attorney, today at a luncheon of the Business Science Club, at the Hotel Adelphia.

"At least three great public questions are before the American people today, which should be settled, and if possible decided by the next presidential election, namely: The League of Nations, relations with Mexico and Bolshevism," said Mr. Edmonds, as a keynote to his remarks.

NEW FOREIGN POLICY URGED BY EDMONDS

"The result was when peace came the world was prepared to acclaim the United States leaders of the world. Little more than a year has elapsed since that time this period has been filled with disappointment, confusion and uncertainty. The average American now is not only disgraced but is distressed to questions of foreign policy."

NEW FOREIGN POLICY URGED BY EDMONDS

"As a temporary resident of Paris, I witnessed the tremendous enthusiasm upon the arrival of President Wilson and also the gradual cooling of this enthusiasm. Europeans were amazed that Americans had made no preparation for the fourteenth points and a set of beautiful ideals."

NEW FOREIGN POLICY URGED BY EDMONDS

"Thus America gradually lost her leadership. To my mind it is clear that we must of necessity enter the League of Nations, with the reservation of Article X as originally framed by Elihu Root."

NEW FOREIGN POLICY URGED BY EDMONDS

"The Mexican question is intolerable if it is true that 500 Americans have been murdered since the overthrow of Diaz and no reparation made by the Mexican Government."

NEW FOREIGN POLICY URGED BY EDMONDS

"Bolshevism should be dealt with upon the basis that if another country chooses to adopt a communistic policy of government that is its own concern. But, on the other hand, we have a right to protect our institutions if that country should attempt to force it upon us."

NEW FOREIGN POLICY URGED BY EDMONDS

"Let banks, the stock exchange and other institutions open an hour earlier, changing their hours from 10 to 3 to 9 to 2. No suggestion as to the features of the daylight-saving plan will then be realized without a possible time middle. Staggering of the influx of workers from the residential districts would also result, greatly easing the early morning strain on traffic."

Co-operation of Jews and Christians Sought at Conference

New York, March 19.—(By A. P.)—A desire for co-operation by Jews and Christians in "promoting righteousness in the American people" was expressed at a recent conference here by representatives of the central conference of American rabbis, the federal council of churches and the home mission council. It was announced today. Campaigns plans will be made at a meeting here Monday.

The conference adopted a resolution which said: "We disclaim and deplore the use of the term 'Americanization' in any case where it is made to mean or to imply that there is no distinction between the words 'Americanization' and 'Christianization,' or carries the implication that Jews or people of other religions and other races are not good Americans. No church should use the term 'Americanization' as a cloak for proselytizing to its distinctive religious views, or as a means of brotherhood with other races. We desire to co-operate with each other, but in all efforts for Americanization and for promoting righteousness in the American people."

All churches in the United States, except the Catholics, were represented at the conference, it was said.

ASKS HELP FOR TEACHERS

Public Must Help, Says National Education Association Worker

The public and not the Board of Education should be acquainted with the needs of public school teachers, and should take up the fight in their behalf for better pay, according to Dr. Hugh H. Magill, field secretary of the National Education Association.

Speaking yesterday at the New Century Club, Doctor Magill declared that the present low teachers' pay a menace to the nation. The minds of future generations will be impaired, he said, if the situation is not remedied.
