Wouldn't you like to know that there's always plenty of water "piping hot" at the turn of the tap?

And remember—there's no "high cost of hot water" where there's a "Lovekin." Write for the name of this "Lovekin" user who says: "It is the greatest thing I ever had. The 'Lovekin' has cut my gas bill just about in half—as you said it would."

In design, construction and exclusive patented features the "Lovekin" is different from any other water heater. But the **big difference** is the difference in results— "Lovekin's" small gas consumption is really surprising. Approved by the U. G. I. Send for booklet.

LOVEKIN WATER HEATER COMPANY 39 Laurel Street Philadelphia
