Stop leaks in profits by stopping leaks in roofs

Water gets through a worn-out roof in unexpected places. It damages walls, ceilings, woodwork, furniture, products, machinery, and starts decay in the building.

Carey Fibre Coating will put instant stop to this inexcusable loss.

It is much superior to ordinary black paint because it is made of pure and genuine Carey Asphalt compounds and preservative oils. It contains genuine Asbestos Fibre which acts as a binder, bridges and fills pores, ties down the old dried scales, and puts new life and resistance into the old roof fabric. Any quantity from gallons to barrels supplied at once.
