Things on which the people expect the new administration to concentrate its attention...

A DIFFERENCE

PARALLEL to the housing situation in Philadelphia exists in New York. But it exists with a difference...

WILLFUL WASTE

AN ADMINISTRATION can usually be counted upon to find excuses for extravagance. It is the traditional privilege of the "Ins" to tell the "Outs" they are mere superficial critics...

MUSICAL PROGRESS CLUE

THE profound and sincere development of musical taste in the United States is more readily recognized than the causes which have worked the revolution...

INCONSISTENT ANTIS

NOT the least picturesque and significant detail of the suffrage fight now concentrated in the Delaware Legislature is provided by anti-suffragists fighting gamely in the last ditch...

MR. FRANCE: LIBERAL

SENATOR FRANCE has been long in politics—long enough, indeed, to know a political fact when he meets it. He has granted that the demand for a referendum is a demand for a referendum...

ONE HUNDRED YEARS OF ANTHRACITE

The Fuel Problems of the Present and Those of the Past and the Future

FOLLOWING the recommendation of the coal commission of an average increase of 27 per cent in the pay of bituminous coal miners, the President has ordered that government control over the maximum price of coal cease on April 1.

The effect of this order is to open the way for the mine operators to pass on to the consumer the increased cost of mining coal incidentally to the increase in the pay of the miners.

TRUCE IN WASHINGTON

COLBY is secretary of state. There was no reason why he should not have been made secretary of state five weeks ago.

MORGENTHAU AND MEXICO

HENRY W. MORGENTHAU has an excellent record as a diplomatist and a public servant. His handling of a difficult situation at Constantinople just before our entrance into the war was resourceful and sincere.

SWAT THE SKETTERS

IN SPRINGTIME spring prepares for a sultry summer. This is the sentiment of Herman Horning, the city engineer, who is already draining the land below Oregon avenue and will oil the ditches and sewer inlets.

TO LEAVE NEGATION, IT WOULD

TO the Gownsmen that the head of a great university should be a scholar, a humanist, an educator in a broad sense of that word, not in the narrow sense of one who teaches the Latin and Greek of little things in several of which he has notably failed himself.

DEEPSEA LONGSHOREMEN

Deepsea longshoremen in New York are striking for higher pay and shorter hours. Deepsea shippers are therefore, short of longshoremen and longshoremen ashore will see themselves grow shorter as the strike lasts long enough. And that's the long and short of it.

PIRATE CRAFT

That pirate craft, the Easter Hat, is beginning to show its sails over the horizon. What Kapp and Luettwitz appear to have done was to set the pendulum to swinging.

EVERY PLAYGROUND HELPS THE CITY

Every playground helps the city to expand its lungs. The passport business may now be resumed. Mr. Colby has been confirmed secretary of state.

THE GOWNSMAN

The College President A CYNIC once observed, "You, sir, I wish somebody would offer me the presidency of a college. I shouldn't much care what college. I want the pleasure, once in my life, of saying 'No.'"

HARVARD'S EXAMPLE

HARVARD UNIVERSITY has just set an example which is likely to affect the salary schedule in every other American university. Encouraged by the success of the campaign for \$12,000,000 additional endowment, the governing board of the university have fixed the minimum salary of a full professor at \$8000 and the maximum at \$8000.

SOME JOB

THE Gownsmen can say, with his hand on his heart, that he has no candidate for either the presidency of Cornell or the provostship of Pennsylvania. Therefore, he may express himself the more freely and take his revenge in his confidence.

WITH the utmost respect to bench and to bar, your Gownsmen, in this hypothetical search after the ideal college president, would, secondly, exclude this learned profession. He entertains a notion, already broached in these columns, that many of our difficulties, political and social, are referable to the enormous number of lawyers.
