ASK MAYOR NAME P. R. T. COMMITTEE

Business Men Urge Him to Call Conference So Difficulties Can Be Adjusted

MAKES TOUR OF THE CITY

For the purpose of expediting transit improvements in Philadelphia, prominent business men will urge the Mayor to appoint a committee qualified to investigate the entire situation and arrive at a working basis on this problem.

The public utilities committee of the Chamber of Commerce will meet this afternoon in the Widener Building for the purpose of discussing various angles of the transit question.

The United Business Men's Association representing 25,000 business men of the city, last night unanimously passed a resolution calling on the Mayor to bring together all the factions in the transit question at a meeting where the fundamentals of the transit program could be formulated and outlined.

The resolution was introduced by Edward A. Noppel, the new appointee to the post of assistant director of the Department of Public Welfare. Mr. Noppel requested that the Mayor invite the transit committee of the business men's association to a meeting.
